A summary of feedback from the consultation

The consultation was designed in order to get the maximum amount of constructive feedback from stakeholders possible with the resources available. This included an online consultation which was widely promoted on social media, in the press and locally through posters and leaflets as well as via email to all stakeholders; a drop-in session to ensure that those that wished to could provide face-to-face feedback. Again this was promoted widely in the press, social media, via posters and leaflets and via email. A specific meeting was held for landowners, with all landowners receiving a personal invite. Finally, a world café style event was held for high-level stakeholders. A number of responses were also received by email.

The general feedback from all modes of consultation was overwhelmingly positive, with the theme of 'respect' that runs through the document in particular striking a chord with respondents.

There were many constructive comments received in terms of improving the Plan and these have been summarised in the sections below. This includes minor tweaks to the data section of the Plan; improving the link between the 'vision' and 'action' section of the Plan; adding page numbers to every page; considering inserting a more detailed strategy in pursuing investment for the Plan; and a number of additions to the action plan.

Drop-in Session

A **drop-in session** was held at Electric Mountain, Llanberis on the 4th of July, in order to give stakeholders an opportunity to feed back on the plan face to face as well as through the online consultation.

Posters advertising the event and the consultation were distributed by National Park wardens to businesses, cafes, shops and community buildings across the Snowdon Area (Rhyd Ddu, Beddgelert, Llanberis, Capel Curig). Significant efforts also went into a media campaign to ensure that people were aware of the event and consultation, with the story featuring heavily on BBC Radio Wales, Radio Cymru and the BBC news website as well as Grough. A social media campaign was also carefully planned, with all partners advertising the consultation and event via their social media outlets.

Despite the widespread coverage, turnout to the drop-in session was relatively low. 15 people attended. Having said this most participants stayed for an extended period and some really useful and considered comments were received on all aspects of the plan.

The comments received on the Plan were overwhelmingly positive. All comments received have been included in full in the tables below.

Landowners Meeting

On the **29th of June in Waunfawr** a meeting was held specifically for landowners of the Snowdon area to gain their feedback on the draft Plan.

National Park wardens hand delivered invites to all landowners living locally and those living further afield received an email invite with a follow on phone call.

National Park staff and union representatives gave an overview of the consultation process, a recap of the issues raised in the original landowners meeting and the role the union representatives have played in the process. Unions happy to be part of process, very supportive of Plan; they noted that the achievement of bringing together users, visitors and landowners is striking and that the relationship between stakeholders in Snowdonia much healthier than in other parts of Wales. They noted that tourism is important to the area but we must not forget farmers and their contribution.

The general feedback from landowners at the meeting was positive with strong support for the theme of 'respect' that runs through the document.

A briefing was then given by National Park staff on the action already taken to address the issues raised in the original landowners meeting in December 2015, and the services that the National Park offers to landowners. The main issues raised at the 2015 meeting and how these issues are/will be addressed:

- Lack of respect (e.g. dogs not on leads, walking on and damaging walls, littering etc): *Work with Young Rangers pilot schemes; school visits to farms; volunteer wardens and area wardens; new information van funded by Welsh government; visitor giving scheme – educating visitors and young people.*
- Charity events/Events (no communication with landowners and don't pay): *visitor giving scheme to encourage events to give back to the area.*
- Parking and transport (not enough spaces and people park in dangerous places): *Work carried out at Cwellyn to increase capacity. Sets out in Plan how we will work with Councils to create and integrated Plan.*
- Paths and access (people going off paths): *Support the wardening team can offer with this.*
- Visit Wales marketing

An overview of the contents of the Plan was then given and discussion and feedback took place around each agenda item. A summary of which can be found in the sections below.

Landowners were also given further details on how to feedback, deadlines for responses and what would happen next. Subsequently a number of landowners both present and not present at the meeting fed back via the online consultation.

[Snowdon World Café Event](#)

A special **world cafe event** to share and discuss together the Snowdon Partnership Plan was held for high level stakeholders.

The aim of the event was to present the draft plan to stakeholders, gather their thoughts about the plan, their ideas for how it could be improved and developed, and how they, and their organisation could contribute to the plan.

There were 110 attendees at the event representing a broad range of high level stakeholders. The event consisted of presentations by experts in their field on specific topic areas, followed by a summary of the content of the Plan by Helen Pye, the National Park Partnerships Manager and then following each of the topic based presentations a facilitated round table discussion in groups.

Feedback at, and following the event was incredibly positive and constructive. A summary of the comments and ideas discussed on each table can be found below and a full summary of all comments recorded can be found in **Appendix 4**.

Online Survey

The online consultation ran for the entire period of the consultation and was promoted widely on social media, as well as on poster and leaflets distributed locally.

A total of 98 responses were received to the online survey – 76 in English and 22 in Welsh.

20% of respondents live or work within 5 miles of the summit

Largest group of respondents (27%) regularly visit the area but do not live or work in the area or north Wales. **Therefore, it can be assumed that the largest group of respondents live and work outside north Wales.**

Respondents were asked to feed back on the data included in the plan, the vision, the action plan and also to provide general feedback. The results are summarised in the sections below, and a full summary of responded can be found in Appendix 1.

The vast majority (85%) where happy with the **data** included in the Plan with some suggested tweaks.

The vast majority (72%) were also happy with the **vision** for Snowdon, with some suggested tweaks including more emphasis on the balance between people and nature and in particular the balance between tourism/visitors and conservation/protecting the landscape.

The majority (63%) of respondents where happy with the **action plan**, with many of the related comments incredibly supportive of the action plan and what it aims to achieve. In terms of suggested improvements, a number of respondents in particular notes the need to strengthen the link between the action plan and vision.

Snowdon Today: Feedback on the range and accuracy of data and information included in the Plan

Drop-in event:

Attendees liked the easy to read infographics used to show data and information and felt that the data included was very accurate.

It was felt that the seasonal cycle could include more information with regards to the seasonality of pressures e.g. parking and that it would be useful, if available, to use the farming data for Snowdonia rather than Wales in relation to the economy.

Online Consultation:

Respondents where asked if they were happy that this section reflects what Yr Wyddfa looks like now. As with the drop-in event, the vast majority of respondents 85% where happy with the

content. Of those that weren't the vast majority where for individual requests for inclusion of data not currently available. There were however a number of times where the same type of data was requested by a number of respondents:

- Several respondents asked for more data on the parking problems in the area. Data on this is not currently available, however this will be considered as an area of research for the future.
- Several respondents also noted that they would like to see the difference in call-out ratios on the different '3 peaks' more clearly displayed.
- A number of respondents would like to see the farming figures displayed for the same region (i.e. Snowdonia) as the tourism figures.
- A number also noted that the data for dog attacks on sheep was confusing.

Snowdon in 2030 – Our Vision: Feedback on our future vision for Snowdon

Drop-in event:

Attendees felt that the vision was excellent with many positive comments. One attendee felt that 2030 was too far into the future and that action should be taken sooner. The action plan (see below) does set out a five-year plan, but perhaps this could be made clearer in the 2030 vision.

In terms of specific comments and suggestions, there was widespread support for the 'respect' theme. New Zealand (Department of Conservation) was used as specific example of where this approach has been implemented successfully. One person felt that an emphasis on the education of younger people was lacking.

There was strong support in favour of improving communications in the area, though one person was concerned that people came to the area in order to escape technology. There was also strong support for improving facilities – in particular toilets which were felt to be sub-standard at present. Information at the start of the paths (in particular Llanberis) was also strongly supported.

In terms of the environment, there was much emphasis on dealing with the litter problem, and it was also suggested that there could be a more specific focus/emphasis on celebrating the important wildlife of the area.

Landowners meeting:

Strong support for the theme of 'respect' that ran through the document. This message can be really built upon.

Online Consultation:

72% responded positively to the vision for Snowdon. Over half of all respondents (56%) were happy with the remaining 16% Extremely Happy.

Just over a quarter responded negatively. Only 4% were 'Not at all happy'. Many of these were of polar opposite view points, with only one point consistently repeated by a number of respondents:

- More emphasis on the balance between people and nature and in particular the balance between tourism/visitors and conservation/protecting the landscape.

Snowdon World Café Event:

These are the points that came out repeatedly from the facilitated discussion at the Snowdon Event in terms of elements that could improve the Plan.

1. Respect

1. Fully integrate agreed marketing messages (re countryside code/respect/mountain safety/language/culture) into all information sources (and work psychology department at Bangor Uni to develop messages), including visit wales/government campaigns, TICs, Partnership websites & Visitor Giving scheme etc. Stakeholders who have offered to help spread the messages: BMC, Plas y Brenin, Ramblers.
2. A zero waste mountain – recycling points at all access points along with encouraging less use of paper cups etc.
3. Promote the benefits of tourism locally.

2. Infrastructure and services

1. A better timetable for the Sherpa bus service.
2. Use of FEMTO cells/TV Whitespace for improving phone/wi-fi signal
3. Better promotion of bus services.
4. Improved balance between buses and taxi services.
5. Improve the clarity of road marking and parking signage.
6. New information centre/building at Pen y Pass.

3. Local Economy

1. Brexit and its impact.

4. Environment

1. Educating visitors about the environment (as well as the culture and language of the area) via outdoor providers, wardens (SNPA & NRW) and volunteers.
2. Use volunteers for carrying out environmental surveys.
3. Incentives/campaign for the removal of litter from the mountain.

5. Visitor Information

1. Better linkages/partnerships and transport links with other attractions in the area.
2. Ensure that local businesses have information on mountain safety messages; transport; routes and parking information.
3. Develop and widely promote a Snowdon app which would:
 - Provide up-to-date, downloadable information on:
 - Walking routes
 - Countryside code
 - Mountain safety
 - Public transport
 - Parking
 - Accommodation and local businesses
 - Mountains and tourist attractions other than Snowdon
 - Local history, wildlife, other points of interest
 - Welsh language
 - Snowdon events (e.g. marathon, 3 peaks race, etc.)

- Guidance for group leaders
- Gather information on:
 - Planned group visits
 - Visitor experience
 - Visitor activity
 - Reported problems
 - Environmental surveys
 - What to do in an emergency

General

The need to identify sources of investment/income generation/reduce costs including:

- Visitor Giving (which would need a lead body co-ordinate).
- Charitable arm to the Partnership.
- Working together/pooling resources to reduce costs.

Action Plan: Feedback on the main priorities for the Partnership

Drop-in event:

There was again strong support for this. One person commented “What you plan to do/achieve could be more specific. How will you measure it?” It’s worth noting that the final section of the plan sets out how we will measure success though this wasn’t focused on at the drop-in session.

There were many specific comments on the action plan, ranging from talking about the litter problem to strong support for the idea of an extended visitor season and guidance for organised events. All comments can be viewed in **Appendix 3**.

Landowners meeting:

- New interpretation van could visit campsites.
- Encouraging organised events to contribute via visitor giving scheme
- More emphasis on events contacting landowners
- Continue to address issues of wild camping
- Deal with parking issues – despite additional spaces at Cwellyn there are still cars parking on the road on bank holidays
- Temporary parking on farming land –Unions could play a role in facilitating discussions
- Re-iterate role of wardens and services they offer to support landowners with access issues
- Footpath erosion on the mountain increasingly becoming an issue
- Consider implications of dogs not being kept on leads on new sections of Snowdon circular
- Snowdon lamb and other local produce branding – NP agri/conservation department to look into potential of this. Complicated process but worth considering.
- Potential for trial PES (payment for ecosystem services schemes) on Snowdon for those that want to participate.

Online Consultation:

63% of respondents were happy with the action plan. Over half of all respondents (57%) were Happy and a further 6% Extremely Happy, with many of the related comments incredibly supportive of the action plan and what it aims to achieve.

Only 7% were 'Not at all happy'. As with the vision many of these were one off suggestions or of polar opposite view points – for example, some felt that the action plan was too ambitious given the current economic climate, and others felt the action plan wasn't ambitious enough. There were a number of points consistently repeated by respondents:

- That the link between the action plan and vision could be made clearer.
- That the action plan could be more detailed (note that there is a very detailed action plan with dates, responsibilities etc. assigned, but as this in itself is a very large document, it has been summarised in the action plan).
- That the section on a 'healthy and thriving economy' could be stronger and have more actions linked to tourism as that has a major impact on the economy of the local area.

General Comments and Feedback

Drop-in event:

The general comments and feedback from the drop-in event were overwhelmingly positive with two points in particular standing out:

- Excitement and general positivity about the Plan and what it could achieve.
- Support of the fact that so many organisations had come together to create and support the Plan.

Landowners meeting:

- Put page numbers on every page.

Online Consultation:

Respondents to the online questionnaire were asked how useful they felt the consultation process had been. The majority responded very positively with just over half (54%) of all respondents found the consultation useful and almost a quarter (22%) found the consultation 'Extremely Useful'. These are some of the comments received:

- *I think the Snowdonia National Park Authority should be commended for its approach to this project. It is a model for the coproduced management of a complex and challenging. Communication has been excellent and there have been multiple opportunities to feed in to the process at key points.*
- *Appreciated opportunity to be able to respond online.*
- *Trwy gydol y broses, mae llawer iawn o gyfleoedd wedi bod i mynegi barn. Ac mae pobl wedi bod mwy na pharod i wrando ar wahanol leisiau - Throughout the process, there have been a lot of opportunities to express an opinion. And people have been more than happy to listen to different voices.*

- *Mae ymdrech arbennig wedi ei wneud i gynnwys pawb yn y broses ymgynhgori - A special effort has been made to involve everyone in the consultation process.*

One fifth though the consultation was 'Not at all useful'. The majority of these were from those who had found out about the consultation via social media and who didn't live or work in the local area. They felt that they should have heard about the consultation sooner than they did.

Changes to the Plan following consultation

All the comments from the consultation have been considered by the Partnership. The Plan will be adapted and improved in particular where we received repeated comments on a specific point or theme. Below is a summary of the changes and improvements we will make to the plan:

Suggested change	Event
General	
Put page numbers on every page	Landowners meeting & Online survey
Re-iterate within the intro the fact that the plan will be a tool for pursuing investment in the area, and the need (as an action) to identify sources of investment/income generation/reduce costs including: <ul style="list-style-type: none"> • Visitor Giving (which would need a lead body co-ordinate). • Charitable arm to the Partnership. • Working together/pooling resources to reduce costs. 	Snowdon World Café Event
Data (Where we are now)	
Show farming data on Snowdonia scale if possible in order to compare with other stats	Drop-in session & online survey
Several respondents asked for more data on the parking problems in the area. Some basic data will be included but detailed data on this is not currently available, however this will be considered as an area of research for the future.	Online survey
Difference in call-out ratios on the different '3 peaks' more clearly displayed.	Online survey
Adapt data for dog attacks on sheep to show number of attacks	Online survey
Vision	
Make clear that there is a 5 and 10 year action plan i.e. action will start straight away.	Drop-in session
Respect: Need to integrate 'education' (schools etc.) into this section somehow	Drop-in session
Environment – dark skies needs to be included	Drop-in session
Environment: More emphasis on the balance between people and nature and in particular the balance between tourism/visitors and conservation/protecting the landscape.	Online survey
Action Plan	

Improve link to vision – by ensuring that the headers for each section link with each other.	Online survey
Incorporate actions to gather data through establishing mechanisms.	Snowdon world café event
Rural Economy and local communities	
Improved contact and networking between landowners, land managers, local businesses, communities, and the Partnership	Drop-in session
Could be stronger and have more actions linked to tourism as that has a major impact on the economy of the local area – this will be improved, but main links are within action plans on ‘infrastructure and services’ and ‘information for visitors’	Online survey
Infrastructure & Services	
A zero waste mountain – recycling at all access points & encourage use of reusable containers etc.	Snowdon world café event
Improve the clarity of road marking and signage (intergrate into action on parking/transport)	Snowdon world café event
Better linkages/partnerships and transport links with other attractions in the area.	Snowdon world café event & drop-in session
Information for visitors	
Explore viability of developing and widely promoting a high quality Snowdon app	Snowdon world café event
More information at the bottom of the Llanberis path and other strategic points in the area by investing in a mobile information van.	Drop-in session & Snowdon world café event
New interpretation van could visit campsites – see above	Landowners meeting
Work with Welsh Government on use of FEMTO cells/TV Whitespace for improving phone/wifi signal	Snowdon World Café Event
Develop respect messages (in relation to countryside code/mountain safety/language/culture/anti-social behaviour at summit) and fully integrate into all information sources. Look at examples from New Zealand (DOC) & work with Bangor Uni psychology dep. Use stakeholders to spread message.	Drop-in session & Snowdon World Café Event & email responses
More emphasis/focus on celebrating the wildlife of the area	Drop-in session
Update the Snowdon waterproof map and guide to intergrate new/emerging messages	Email responses & online survey
Outdoor activities, adventure and education	
Encouraging organised events to contribute via visitor giving scheme	Landowners meeting
Establish clear mechanisms for more emphasis on events contacting landowners and ensuring that there is a database of landowners to contact easily. Ensure that local communities are engaged. Utilise established community groups where appropriate. Add this to the existing action within the Plan re organised events.	Landowners meeting
Re-iterate action that is being taken on wild camping/unauthorised camping – via the wild camping code.	Landowners meeting
Farming unions to play part in facilitating discussions on strategic temporary parking. Intergrate within the parking/transport action.	Landowners meeting

Re-iterate role of wardens and services they offer to support landowners with access issues	Landowners meeting
Consider implications of dogs not being kept on leads on new sections of Snowdon circular	Landowners meeting
Build on the use of volunteers for carrying out environmental surveys and research work.	Snowdon World Café Event
Caring for Snowdon	
Facilitate and support any landowners who want to trial PES (payment for ecosystem services schemes) on Snowdon.	Landowners meeting
Incentive/campaign for removing litter from the mountain via Snowdon Tidy. Incorporate into the 'zero waste mountain' action.	Snowdon World Café Event

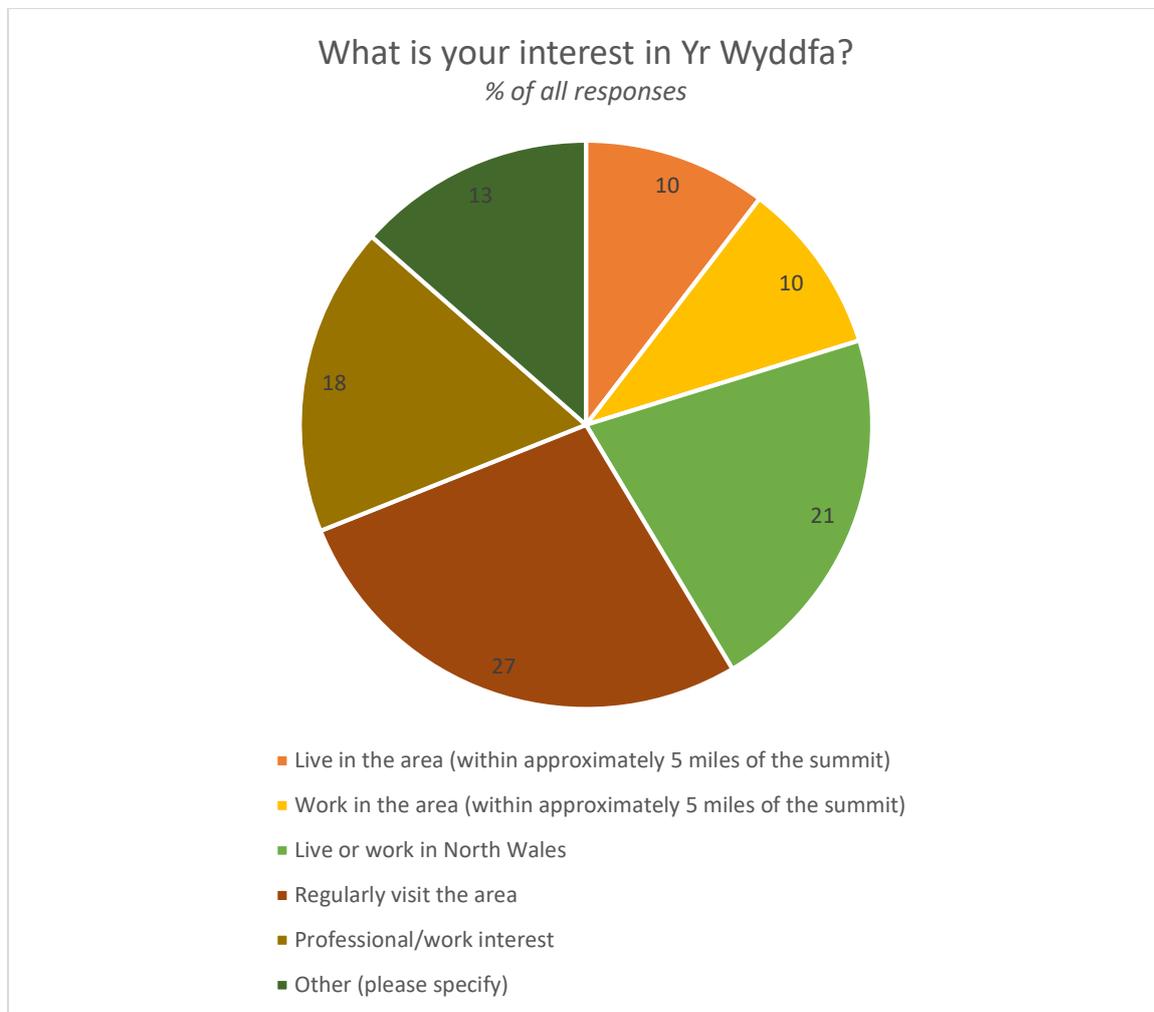

Next steps

1. The changes and improvements outlined above will be made to the Plan.
2. The Plan will be presented to senior management/boards/working groups of all the Partnership organisations for approval.
3. Final changes will be made following these meetings.
4. The final draft will be presented to the National Park Authority for approval.
5. The Plan will be published and launched.

Appendices

Appendix 1: Online Consultation Results in Detail

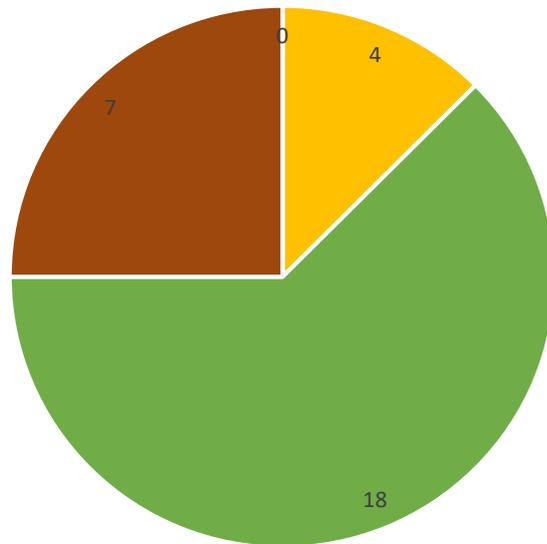

All Respondents (Welsh and English language surveys combined)

20% of respondents live or work within 5 miles of the summit

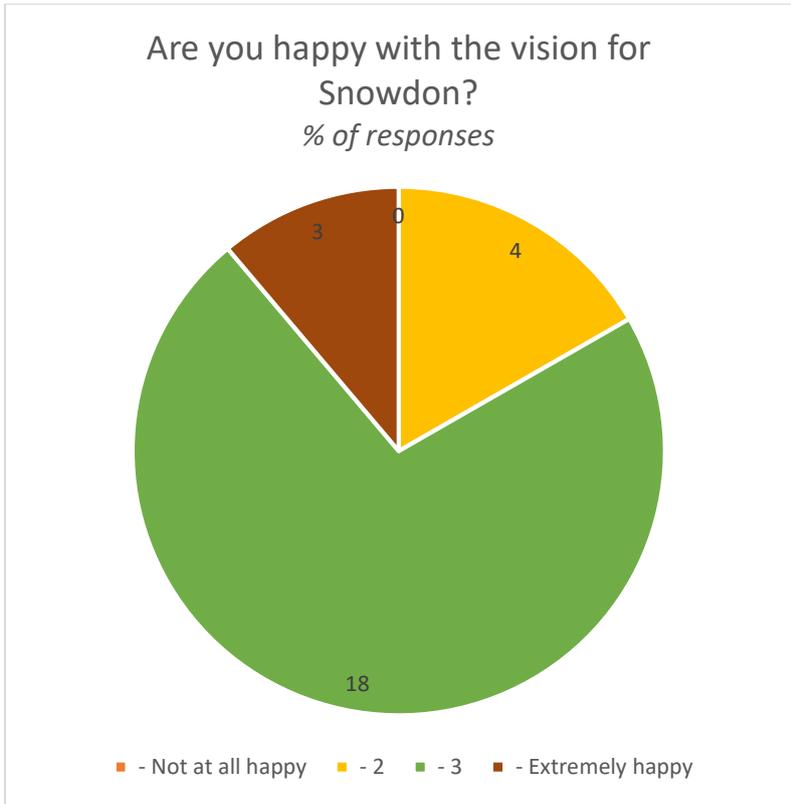

Largest group of respondents (27%) regularly visit the area but do not live or work in the area or north Wales. **Therefore, it can be assumed that the largest group of respondents live and work outside north Wales.**

Are you happy that this section reflects what
Yr Wyddfa looks like now?
% of all responses

85% responded positively to this questions with almost a quarter (23%) Extremely Happy.

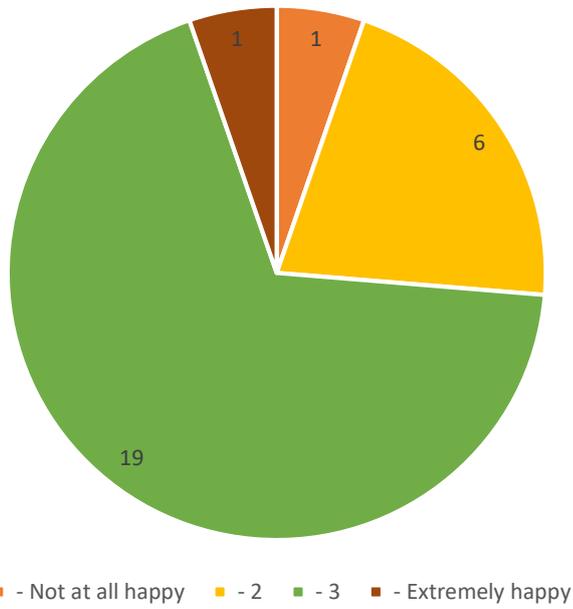

Only 15% provided a negative response

72% responded positively to the vision for Snowdon. Over half of all respondents (56%) were happy with the remaining 16% Extremely Happy.

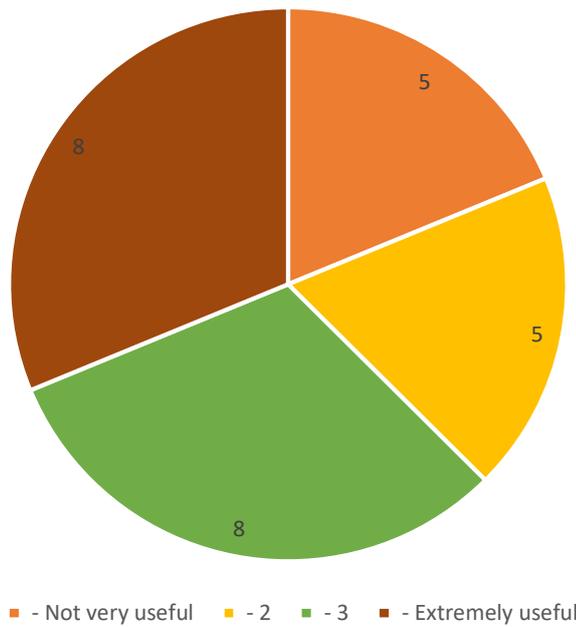

Just over a quarter responded negatively. Only 4% were 'Not at all happy'.

Are you happy with the content of the
action plan?
% of all responses

Over half of all respondents (57%) are happy with the action plan, a further 6% are Extremely Happy. Only 7% were 'Not at all happy'.

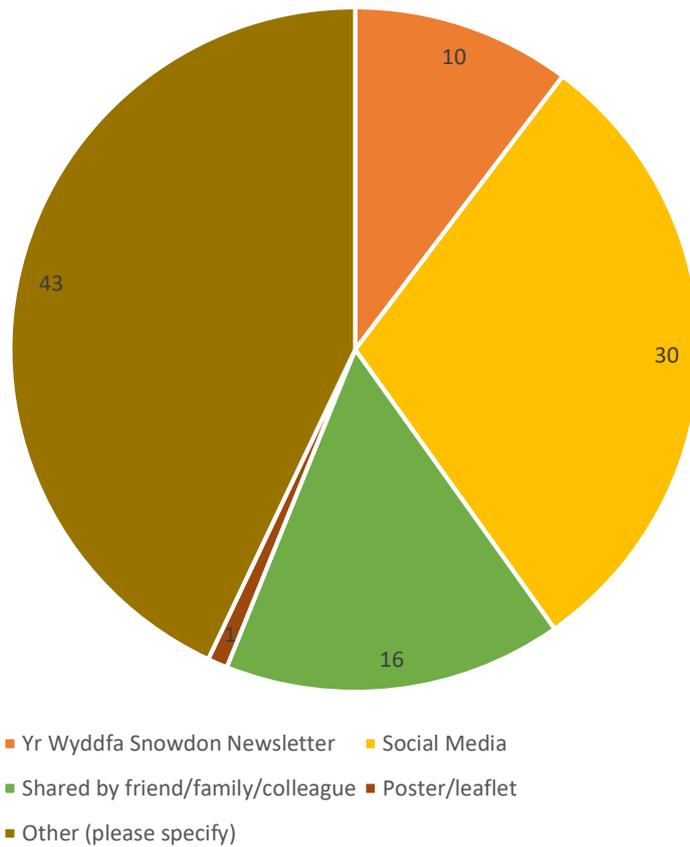

How useful was the consultation process...
% of all responses

Just over half (54%) of all respondents found the consultation useful. Almost a quarter (22%) found the consultation 'Extremely Useful'.

One fifth though the consultation was 'Not at all useful'.

How did you hear about this consultation?
% of all responses

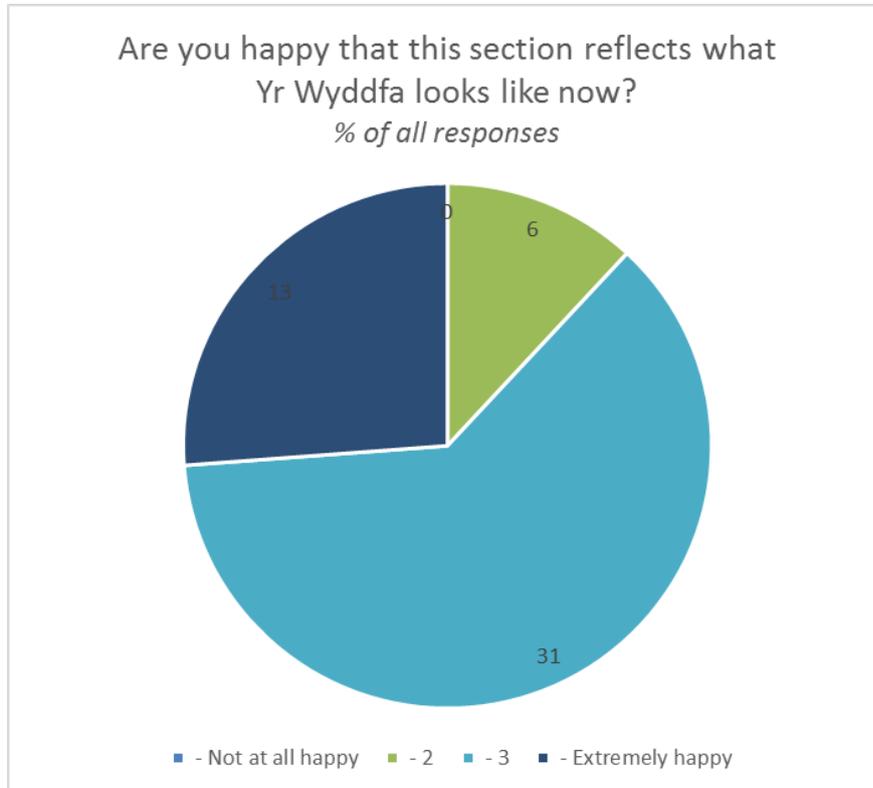

Almost a half (46%) heard about the consultation socially – either digitally (social media) or directly from social contacts.

A further 43% heard from a range of 'Other' sources.

Below responses are broken into Categories as described base on their relationship with the area. Data labels show the percentage of all responses across all categories for each question. Therefore, in the first graph below 31% of all responses for this question where by Category 1 individuals responding with a 3.

Category 1 – Professional/work interest; live in the area; work in the area

Comments:

- *Cytuno gyda'r hyn a nodwyd. Problem parcio yn un difrifol sydd yn effeithio llawer ar y cymunedau sydd angen gweithio a theithio yn yr ardal. Problem arall yw y gostyngiad sylweddol sydd yn cymryd lle gyda nifer y defaid sydd yn pori ar y mynydd. Mae hyn yn siwr o arwain at gollu nifer fawr o gynefinoedd gwahanol ymhen amser - Agree with what has been identified. There is a serious parking problem that affects the communities that need to work and travel in the area. Another problem is the significant reduction that has taken place in the number of sheep grazing on the mountain. This is likely to result in the loss of a large number of different habitats in time.*
- *Cynhwysfawr iawn – Very comprehensive.*
- *Rhyd Ddu is still the abandoned route of Snowdon, On 'getting to Snowdon' it is not even placed as a route to Snowdon.*

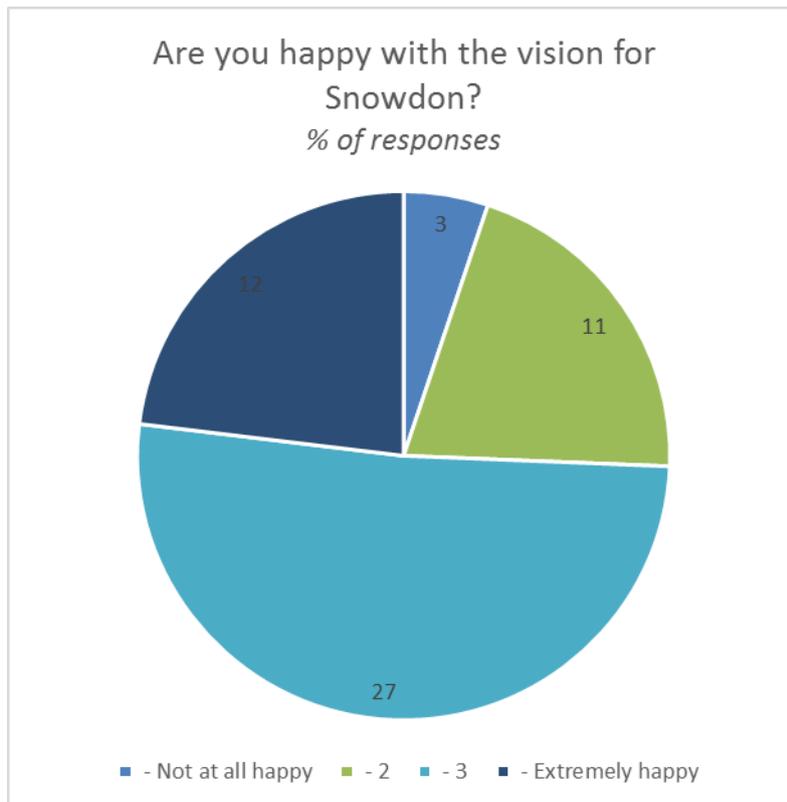

- *I am pleased to see that Snowdon Ranger carpark has been redesigned to accommodate more spaces but a lot more needs to be done on the Western side of Snowdon.*
- *From our experience the majority of visitors are from London and the South and I feel that the percentage of 19% of visitors is not realistic.*
- *There seems to be gaps in the number of events. The infographics are great but the number of them and pages given to them does make it feel some what more style of content in terms of balance with the whole strategy.*
- *I would like more information about the pitching of paths and what is planned for the future.*
- *page 29 - farming subsidies could be explained better. Figures from the Aberystwyth University could be summarised to show how much average subsidies upland farmers receive, what their average outgoings are, and how much their annual average loss would be without subsidies*
- *page 33 - young ranger scheme. Could there be more on how the scheme is financed, by whom, are they volunteers, is it like an apprentice scheme where they get paid?*
- *Mi fysai'n dda cael mwy o bwyslais ar materion fel ecoleg y mynydd – I think it would be good to have more emphasis on issues such as the ecology of the mountain*
- *The data was presented well and was thorough. It was very readable.*
- *Everything geared to getting as many people on the mountain as possible. This is not sustainable and is resulting in excess erosion and increase risk of accidents due to too many people together on some narrow sections of path.*
- *Teimlo ella fod yr holl bwysau sydd ar y mynydd yn arbennig ar benwythnosau yn yr haf ddim ddim wedi dod allan digon clir rhywsut - Feel that all the pressure on the mountain especially at weekends in the summer has not come out quite clearly somehow.*
- *Dim yn dangos digon o'r problemau efo parcio, nac yn wneud digon i ddangos y cydbwysedd rhwng cyfanswm effeithia costus yr ymwelwyr a cyfanswm effeithiau buddianol yr ymwelwyr - Do not show enough of the problems with parking, nor enough to show the balance between the total cost of visitors' and the total visitor benefits.*
- *Mae'n dasg fawr i grynhoi gymaint o wybodaeth sy'n dangos yr holl wybodaeth gwahanol am yr Wyddfa – It's is a huge task to summarize so much information that shows all the different information about Snowdon.*
- *Mae'r adran yma yn gosod allan yn glir yr amrediad eang iawn o weithgarwch sydd yn cymryd lle ar y mynydd. Mae yn nodi ei bwysigrwydd fel cyrchfan yn yr ardal a'r lefelau cynyddol o ymwelwyr sydd yn dod i wneud defnydd o'r mynydd. Mae'r data yn hawdd i'w ddarllen ar arddull yn eglur. O safbwynt amaethu mae'n dda gweld bod y ddogfen amlygu nifer y ffermydd a'r teuluoedd sydd yn ceisio gwneud ei bywoliaeth ar y*

mynydd. Mae'n amlwg o'r data bod y rhai sydd yn ymweld gyda'r ardal yn gwerthfawrogi y tirwedd sydd ar gael iddyn nhw ac yn ei sgorio yn uchel o ran boddhad. Mae'r adran yn darlunio yn glir bod y lefel defnydd yn cynyddu yn sylweddol iawn dros y blynyddoedd diwethaf sydd wrth gwrs yn rhoi straen ar y mynydd a'i adnoddau. Mae'r astudiaeth achos am ffermio yn ddefnyddiol ar gyfer amlygu sut mae amaethu yn bodoli ar y mynydd a sut mae tirwedd a daearyddiaeth yr ardal yn cyfyngu ar yr opsiynau amaethu sydd ar gael yma. Croesawir gweld bod yr iaith Gymraeg hefyd wedi cael ei mesur yn yr ardal ehangach fel rhan o'r data, gan ei bod yn rhan o fywyd y rhai sydd yn byw ar, ac yng nghyffiniau y mynydd o ddydd i ddydd - This section sets out clearly the very wide range of activities that takes place on the mountain. It identifies its importance as a destination in the area and the increasing levels of visitors that make use of the mountain. The data is easy to read in a clear style. In terms of agriculture it is good to see that the document highlights the number of farms and families that try to make its living on the mountain. It is clear from the data that those who visit the area appreciate the landscape available to them and score it highly in terms of satisfaction. The section clearly illustrates that the level of use is increasing significantly over recent years which, of course, puts stress on the mountain and its resources. The case study about farming is useful for highlighting how agriculture exists on the mountain and how the landscape and geography of the area limits the farming options available here. It is welcomed to see that the Welsh language has also been measured in the wider area as part of the data, as it is part of the life of those who live on and in the vicinity of the mountain on a daily basis.

- *This section is fantastic. Its very informative, the infographics convey important facts effectively because its easy to remember them and therefore spread the word. Not only that but it compels you to spread the word - some of the facts are staggering (e.g. 1 skip filled with litter every day in Pen-y-Pass in summer!) - and really highlights the demand the mountain is under from visitors. It invokes a sense of urgency and, in my view, succeeds in the goal of encouraging respect for the mountain. It also highlights the positives of this demand in terms of economic benefits and employment in the local area, which is encouraging.*
- *Suggestion for improvement on p.25: Are there any facts/figs to highlight how much research is going on/has been done in the area (could encourage collaborations) e.g. how many decades of monitoring? Currently the focus is on who the ECN are, rather than what research they do in the area, the wealth of data available, and what impact this has had in terms of environmental protection.*
- *There are no details on the number of people who make their living from working daily in the area ie mountain leaders, mountaineering instructors etc and on a part time basis who travel to work in the area.*
- *Could do with more detail around who the current visitors are, age range, nationality, gender, sexuality.*
- *There is no reference to the historic environment. This includes sites of national significance, such as Dinas Emrys, steeped in legend, as well as a wide range of prehistoric settlements, upland settlement of medieval and later date, medieval churches, including the former priory church of Beddgelert, medieval castles, industrial*

sites including copper and slate mines. Historic settlements including Beddgelert, Nant Peris and Caernarfon. Gwynedd Archaeological Trust can provide advice on the significance of the historic environment, and the contribution it makes to the character of the area. The Trust maintains the regional Historic Environment Record, and advises on all matters relating to the historic environment within north-west Wales.

- *Most of our guests in the Conwy Valley come here to "Do" Snowdon. The influence of the Summit actually extends further than your 5 mile "radius" So Public transport from further afield should be included in the present shortcomings. There is a wider loup Caernarfon, Blaenau, Conwy, Bangor, that needs to be included in any summary of transport issues*
- *I think it is good and clear*
- *Generally, the data for the Snowdon area is good. However, more could be included to link with national data sets. National trends in participation of key activities (walking, climbing etc) would help give context and highlight future demand (Wales Outdoor Recreation Survey - <https://naturalresources.wales/media/681025/welsh-outdoor-recreation-survey-key-facts-for-policy-and-practice-2016.pdf>).*
- *Excellent choice of topics but where is the question of how many 'guides' work on Snowdon and how many days per year, maybe the MTA could help here.*

Comments

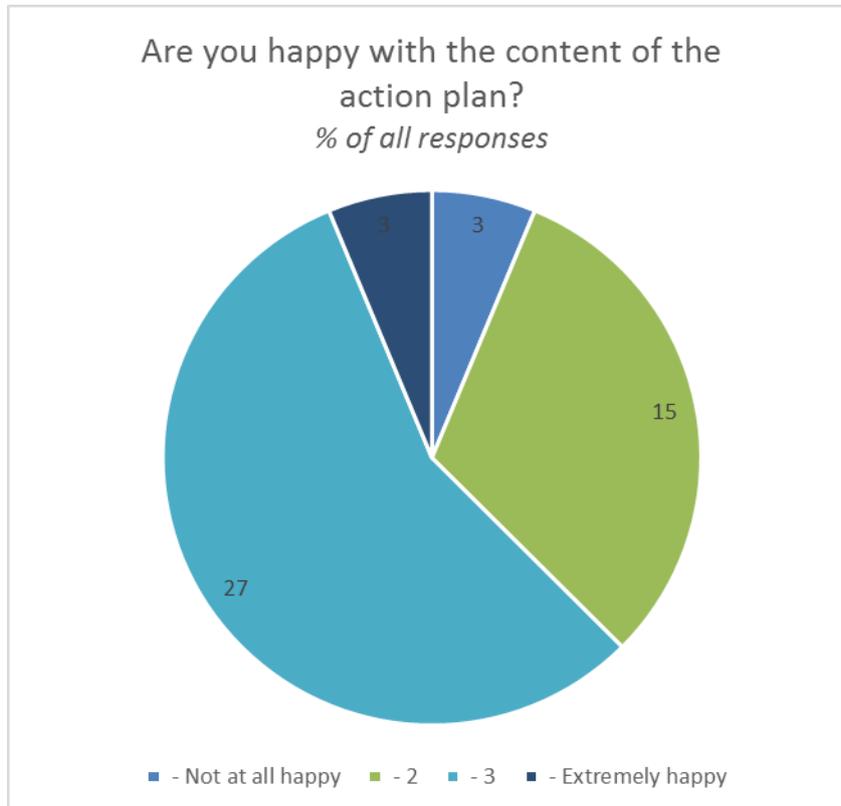

- *Ddim cweit yn siwr beth sy'n cael ei awgrymu ym mhwynt 4. Nid ydym angen prosiectau i reoli y tir, mae hynny wedi cael ei wneud yn berffaith glir o fewn y bartneriaeth. Dylid gadael i hynny ddigwydd o dan gynlluniau amaeth-amgylcheddol Llywodraeth y Cynulliad e.e. Glastir – Not quite sure what is suggested in point 4. We do not need projects to manage the land, that has been made perfectly clear within the partnership. That should be done under the Assembly Government's agri-environment schemes, e.g. Glastir.*
- *Angen rheoli'r ymwelwyr a'r mewnfudwyr yn well - Better management of visitors and people moving to the area.*
- *Mae'r ymateb yn cymeryd i ystyriaeth nifer o ofynion gwahanol. Hoffwn weld mwy o gynlluniau penodol (ond mae'n siwr fod hyn i ddod) - The response takes into account a number of different requirements. I would like to see more specific plans (but it's sure that this is to come)*
- *Current upland hillsheep farming maintains an ecological upland desert lacking in biodiversity. Also if you want to protect Sherpa bus services, something needs to be done about CK kabs touting for business at every bus stop between Llanberis and Pen y pass. Even on busy days the buses are only a third to half full as the taxi drivers approach people waiting at bus stops and undercut the bus service.*

- *Rhyd Ddu and the Western slopes of Snowdon have been disregarded for far too long. We are at present being threatened by yellow lines in the village due to SNP and Gwynedd Council not providing the services required i.e. public transport and adequate parking*
- *"Local people, businesses and communities have a greater understanding of the benefits of tourism" This feels rather patronising, as I think many do understand particularly as so many rely on tourism as a key source of income. I would have liked to have read some more vision about also addressing the challenges that Snowdon brings to communities (such as parking for residents and particularly those who have to drive into communities to access basic facilities, and then clearly underpinning that affordable housing.*
- *Reading the document I fail to see a real vision. It just appears to be written to congratulate certain organisations on what they have done so far.*
- *The objectives give the impression of some clarity and rigidity, but I feel there's sufficient 'wiggle room' to allow objectives to /appear/ to be met. At this stage of the consultation, I'd expect to already see something firmer (e.g. we will build toilet facilities in locations A,B &C...)*
- *All good aspirations, but **too many buzz words on page 38** - these are better explained later in the plan*
- *Llawer iawn o waith pharatoi da wedi mynd i'r ddogfen – A lot of very good preparation work has gone into the document.*
- *It is not under or over ambitious.*
- *Again, the focus is very much on "how many people can we get on Snowdon" rather than "how many people can we get to Snowdonia". It would be better to improve overall access to all paths in Snowdonia.*
- *Cytuno yn llwyr fod angen gweithio mewn partneriaeth - Fully agree that partnership working needs to be done.*
- *Gofalu fod barn pobl leol yn cael ei gofnodi - Ensure the views of local people are recorded.*
- *Mae'n dda gweld bod parch yn cael ei gydnabod fel rhan greiddiol o'r weledigaeth. Yn fwy na dim mae hyn yn bwysig iawn i sicrhau unrhyw lwyddiant. Mae angen addysgu y rhai sydd yn ymweld (ac yma eisoes) am yr angen I ddangos parch tuag at y tirwedd a'r rhai sydd yn byw a gweithio oddi mewn iddo. Mae cryfhau dealltwriaeth y rhai sydd yn ymweld a'r mynydd o'u heffaith ar yr ardal yn hanfodol. Mae cryfhau a datblygu'r seilwaith ddigidol o amgylch Yr Wyddfa I'w groesawu. Mae'n fuddiol o ran cynnig gwybodaeth am yr ardaloedd. Mae buddiannau diogelwch I ymwelwyr a thrigolion o gael rhwydwaith telegyfathrebu gref o amgylch y mynydd ac mae'n fodd hefyd o gefnogi busnesau o fewn yr ardal. Croesawir pwyslais ar sicrhau economi ffyniannus ac mae amgylchedd iach yn gymorth I dwristiaid a Ffermwyr fel ei gilydd. Profiadau da sydd yn sicrhau bod ymwelwyr yn cael eu plesio ac mae angen I hynny fod yn flaenllaw yn ein meddyliau. Y gamp wrth gwrs ydi fframio yr hyn oll oddi mewn I arwyddair y*

Parc 'LLe I enaid gael llonydd' ac mae sicrhau bod y llonydd yma yn parhau I fod ar gael yn hanfodol I bawb sydd ynghlwm a'r Wyddfa. Mae'r hyn sydd wedi ei nodi yn yr adran yma yn cyd-redeg ar sawl lefel gyda Deddf Llesiant Cenhedlaethau'r Dyfodol 2015, Llywodraeth Cymru ac byddai yn fuddiol dadansoddi hyn fel rhan o'r weledigaeth ar gyfer y dyfodol - It is good to see that respect is recognized as a core part of the vision. Above all this is very important to ensure any success. Those who visit (and are here already) need to be educated about the need to show respect for the landscape and those who live and work within it. Strengthening the understanding of those who visit the mountain of their impact on the area is essential. Strengthening and developing the digital infrastructure around Snowdon is to be welcomed. It is useful in providing information about the area. There are security interests for visitors and residents of having a strong telecommunications network around the mountain and is also a means of supporting businesses within the area. An emphasis is placed on securing a prosperous economy and a healthy environment that helps both tourists and farmers. Emphasis also on a good experience that ensures visitors enjoy and this needs to be at the forefront of our minds. The challenge is, of course, framing all of this in the Park motto 'Britains breathing spaces' and making sure that this still remains available is essential to all those involved in Snowdon. What is set out in this section co-insides on several levels with the Welsh Government Future Generations Act 2015, and it would be beneficial to analyse this as part of the vision for the future.

- *The 'pathway to success' sets out a clear and ambitious vision, targets all key areas and answers the issues set out earlier in the document. 4. A healthy and thriving environment: More specifics needed e.g. what is meant by 'exemplary conservation management' and how does this ensures a healthy and thriving environment, what is the vision for a 'healthy and thriving environment' (clean water, abundant fish?). Hub for research and data collection - great but again could expand e.g. global impact, citizen science initiatives?*
- *When thinking about a vision for 13 years time it needs to be considered in the wider context of where the world is. Areas such as technology changes, social media useage, customer influences, demands and profiles, world travel changes, and economics*
- ***The vision misses out the historic environment***, and all that it contributes to the sense of place and strong connections with previous cultures. This cultural time-depth encourages appreciation of the area in different ways, adding to the strong visual and sensory perceptions which the landscape inspires.
- *As explained in my previous comment on "Now", Wider Public transport issues in North Wales need to be addressed as well as just Pen Y Pass links. Plus There's no mention of the impact of Driverless cars which by 2030 will have fundamentally changed the person transport landscape, and have lots more people just pushing a button and saying "take me to Snowdon"*
- *It sounds good. Now how do we implement it...*
- *Unclear what the vision is. Document is large and lacks a summary. Too many pictures.*

- I agree with five key points in the vision, however, there needs to be a stronger map though of the key points into the rest of the document. **Ideally the 5 Vision headings would be used as the thematic headings for the Action Plan.**
- An excellent balanced approach to the different areas that need attention

Comments:

- *Brandio lleol - gwych!!! Cwn yn lladd defaid yn broblem fawr! Angen addysgu y cyhoedd am y Cod Cefn Gwlad. Caniatáu mwy o hyblygrwydd i sefydlu meysydd parcio yn angenrheidiol. Angen gwella argaeledd bandeang o gwmpas yr ardal yn hanfodol. Angen rheoli nifer o ddiwyddiadau mawr yn yr ardal. Trwyddedu digwyddiadau gydag uchafswm nifer o bobl yn cymryd rhan. Rwyf dal o'r farn bod **angen i bawb dalu am "permitt" i gael mynd ar y mynydd**. Efallai y gellir codi tal ar bobl yn ystod y cyfnodau prysuraf. Ni ddylid ymyryd gyda rheolaeth o'r tir, dylai hynny gael ei wneud trwy gynlluniau amaeth amgylcheddol Llywodraeth y Cynulliad. Dyma yw safbwynt y Bartneriaeth a rhaid glynnu yn dyn at yr egwyddor yma er mwyn sicrhau cefnogaeth y ffermwyr ar y mynydd - Local branding - great !!! Dogs killing sheep is a big problem! Need to educate the public about the Countryside Code. Allow more flexibility to establish car parks as necessary. Essential to improve the availability of broadband around the area. Need to manage the number of major events in the area. Event licensing with a maximum number of people taking part. I still believe that everyone*

needs to pay for a "permit" to get on the mountain. People may be charged during peak periods. Land management should not be interfered with, that should be done through the Assembly Government's agri-environment schemes. This is the Partnership's agreed stand point and this principle must be kept to maintain the support of the farmers on the mountain.

- *Angen sdopio pobol gyda camper vans rhag partcio mewn laybys - gweld degau ohonyn nhw'n ddyddiol. Hefyd angen rheolau llymach ar sut mae cael a chadw tai haf yn yr ardal. Nant Peris yn llawn o dai haf - Need to stop people with a camper vans from parking in laybys - see tens of them daily. Also need tighter rules on how to buy and keep summer houses in the area. Nant Peris is full of summer houses.*
- *I would feel more optimistic if the forecasts for the next 30 years and within the next 5 years included, especially, Caernarfon – Snowdon Ranger – Rhyd Ddu – Beddgelert with an equal service to cover the Western slopes of Snowdon and give a true circuitous route around all six main footpaths to Snowdon.*
- *Partnership officer will is a good action to start, but concerned that the scope of this plan does not expand to whole of the SNP, my concern is that it appears to not recognise some of the real underlying challenges, which could undermine some of the proposed actions. I wonder if this partnership officer becomes another conduit for concerns that that are beyond their remit. If there is not more affordable housing in some key areas such as Beddgelert then 'communities' will disappear and the people supporting tourist services and farmers will ultimately disappear. If families in particular cannot afford to live within area then you lose children, and then you start losing the future stakeholders that would have personal and rooted investment in ensuring that Snowdon is well sustained. I would like to see more aspects of community ownership, community involvement beyond just being volunteers and needing to have "greater understanding of the benefits of tourism". Perhaps there needs to be some tangibility of the benefits on the daily lives.*
- *I noted a lot of actions which seems ambitious and beyond indicators for achieving the vision- are there any intermediary results or a Theory of Change as to how the proposed actions will deliver the outcomes desired. I appreciate this might be in a technocratic document not meant for public consumption but for me there seemed a gap. I would be interested in learning more.*
- *Hello, As a local resident, I feel the impact of large events is being underplayed, and the future management of this requires more attention in the document.*
- *the goal is: "A wider recognition of the benefits of organised events, with reduced local disruption, more effective communication with local communities, and best practice advice and guidance for event organisers."*
- *fysai'n dda cael ryw fath o syniad ar sut mae'r gwaith gwarchod natur yn mynd i cael i wneud ac ariannu - It would be good to have some sort of idea about how nature conservation work is going to get done and funded.*
- *Maybe a little more specific?*

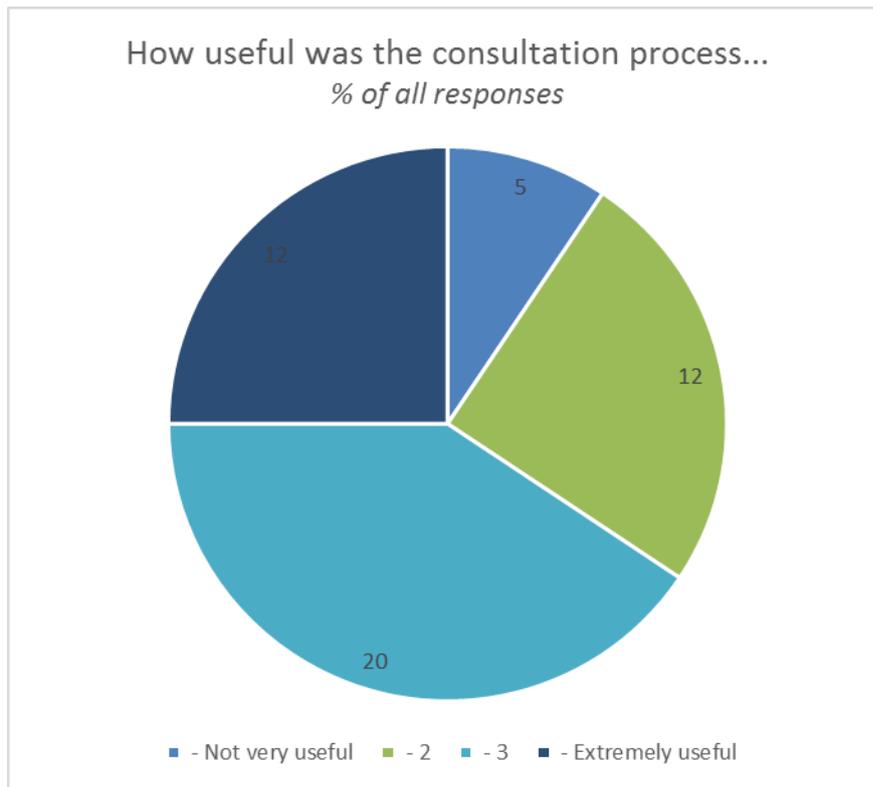

- *Action plan should include increasing waymarked paths for other routes. **For example there are no way marks for Moel Eilio, Eilidir or Glyderau. By making these mountains more accessible you would "spread the load" so-to-speak.***
- *I think there needs to be more emphasis on car parking and traffic management - especially as with the development of EV and autonomous vehicles the requirements for 2030 may be very different anyway. By this time it is likely we will need drop-off/pick-up zones with the autonomous vehicle returning to a remote parking area until summoned by the owner's smartphone when they descend the mountain. Just a thought!*
- *Cytuno hefo mwyafrif o'r syniadau yn y cynllun - Agree with most of the ideas in the plan.*
- *pwysig iawn fod y Gwasanaeth Bws Sherpa yn cael ei ddatblygu ac ehangu, angen gwell darpariaeth lwasanaethu llwybrau Cwellyn a Rhyd Ddu - very important that the Sherpa Bus Service is developed and expanded, the need for better provision to serve the Cwellyn and Rhyd Ddu routes*
- *Angen mwy o bwyslais ar waith cynnal llwybrau - Need more emphasis on path maintenance*
- *A ddylid ceisio datblygu gyrfaoedd l bobl ifanc hefo sgiliau cefngwlad hefyd yn o gystal megis adeiladau waliau cerrig, gweithio ar llwybrau etc - Should we try to develop careers for young people with rural skills such as stone wall buildings, working on paths etc.*
- *Holl bwysig ceisio annog pobl i ddod ar adegau gwahanol o'r flwyddyn/wythnos i lleihau pwysau ar y mynydd - All important to try to encourage people to come at different times of the year / week to reduce pressure on the mountain*
- *Hefyd cytuno y dylid ceisio hybu mynyddoedd eraill yn Eryri e.e. Cader Idris, Aran Benllyn a fyddai yn gallu lleihau y pwysau ar y Wyddfya ac hefyd dod a budd economaidd l rannau eraill o'r ardal - Also think that other mountains in Snowdonia should promoted e.g. Cader Idris, Aran Benllyn which could reduce the pressure on Snowdon and also bring economic benefits to other parts of the area*
- *Dim yn credu fod yna ddim digon o bwyslais ar addysgu/rheolaeth - angen pwysleisio pwysigrwydd cadw cwn dan reolaeth a ystyried ffyrdd i orfodi, pwysigrwydd cadw at y llwybrau i atal erydu ac ati - Do not believe that there is not enough emphasis on educating / management - need to emphasize the importance of keeping dogs under control and considering ways to enforce, the importance of adhering to the paths to prevent erosion etc.*
- *Yr her fwyaf yw atal erydiad llwybrau, ac wedyn sortio'r broblem drafnidiaeth allan - oherwydd nifer y ceir, mae angen nifer gynyddol o feysydd parcio. trafndiaeth integredig gyhoeddus yw'r ateb all ddiwallu anghenion ymwelwyr a thrigolion y Parc - The biggest challenge is to prevent erosion of paths, and then sort out the transport problem - due to the number of cars, an increasing number of car parks are needed.*

Public transport is the solution that can meet the needs of visitors and residents of the Park.

- *Dda gweld bod gwaith i'w wneud ar gyfer gwella cysylltiadau a rhwydweithio gyda thirfeddianwyr a rheolwyr tir. Mae gallu sicrhau bod datblygiadau yn digwydd mewn ymgynghoriad gyda rhain yn allweddol. Ble mae cyfleon yn caniatau i hyrwyddo brandiau lleol ac I ychwanegu gwerth i'r cynnyrch crai sydd yn cael ei gynhyrchu yn ardal Yr Wyddfa mae i'w groesawu. Mae amlygu'r brandiau yma drwy fusnesau lleol yn gymorth i uchafu gwerth y cynnyrch sydd ar gael ac I glymu'r cynnyrch efo'r profiad - Good to see work to improve relations and networking with landowners and land managers. The ability to ensure that developments take place in consultation with these are key. Where there are opportunities to promote local brands and to add value to the raw product that is being produced in the Snowdon area it is to be welcomed. Highlighting these brands through local businesses helps to maximize the value of the products available and to tie the product with the experience*
- *Outdoor activities, adventure and education*
- *Improved access for the disabled?*
- *Caring for Yr Wyddfa:*
- *Need to specify how you will ensure that land managers are adequately supported to manage the environment. **Could develop volunteer/placement schemes** (similar to Young Rangers scheme) to encourage more student engagement, help them develop skills whilst helping achieve goals (e.g. developing information material, practical conservation work, blogs)*
- *Action plans need to be linked together; what the action is; who is responsible for it; how will it be measure and monitored; and how will we know when it has been delivered. I would like to have seen the actions sub-divided into goals within 5 years, 10 years and 13 years, with a recognised list of priorities. In regards to actions I would like to see a recognition in **how technology will assist in development in areas like; charitable donation with possible contactless payment points on the mountain; use of VR for people with mobility limitations; carbon offset options for visitors.** The actions just seem a bit dull and ordinary and not very stretching*
- *The historic environment provides exceptional opportunities for marketing. The concept of heritage-led regeneration has also been used to good advantage in many areas of the UK. Mixing cultural events to include the natural environment, historic environment, and their interpretation through art, literature and music, encourages visitors to come and keep returning. Plas Tan y Bwlch can play a significant role here.*
- *I'm sure things will change, but as long as you keep flexible and be willing to follow those changes it should help*
- ***As well as a Web page how about an app?** With all information you want to promote. It could be downloaded at time of booking. It is essential that hotel/b&b/campsite owners get on board with this. You could make posters to be put on the back of toilet*

doors etc rather than leaflets. Also info boards are a must. If people realised how long it takes for a banana skin to biodegrade then they might think twice about dropping it.

- As well as the lack of summary, there's a lack of detail!
- As before, there needs to be a clearer structure that links the vision to the actions plan.
- There could also be a stronger link between the 'where are we now' and the outputs and outcomes. There is currently **little indication shown of how much extension to the baseline that is targeted. This will make assessing the success of the project very difficult.**
- There could also be more clarity around how the outputs will translated outcomes - I would suggest restricting the section as follows: Where are we now (baseline) > what are we going to do in the next 5 years (output 1) > where do we want to be by 2030 (output 2) > what's the impact (outcome) - linking through to goals that can be evidenced.
- It may be worth looking at Result Based Accountability (RBA) when considering this: <http://www.hfrp.org/publications-resources/browse-our-publications/overview-of-results-based-accountability-components-of-rba>
- I think more education of mountain safety and countryside code on any website with a reference to Snowdon should be very visible, also a small poster for all B and B's, hotels etc, maybe also mentioning hiring of a guide....perhaps a link/connection with the MTA website. The aim is about safety but there is also the possibility that more will be spent on courses and equipment.

Comments:

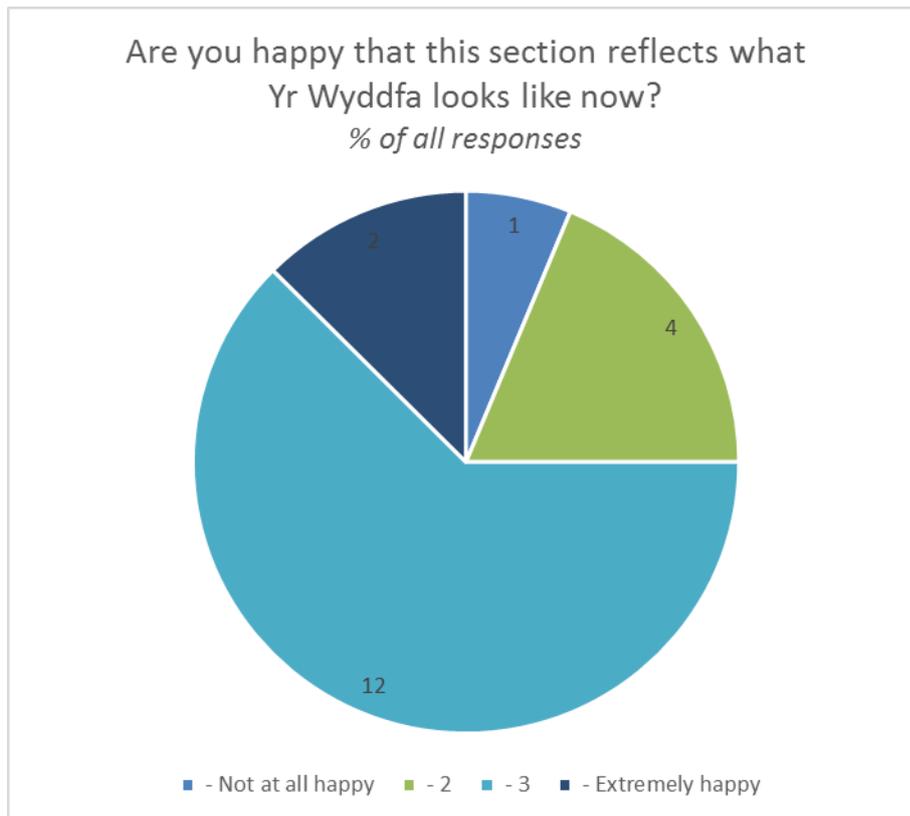

- Gormod o gyfarfodydd "sticky labels". Efallai bod angen gwell cydbwysedd rhwng y ffermwyr a thirfeddiannwyr a defnyddwyr eraill. O bosib gormod o ddylanwad gan bobl sydd ddim yn ddibynol ar y mynydd am eu bywoliaeth. Ddim yn siwr am gynyddu y nifer o bobl a fydd yn "gofalu" am y Wyddfya. Os nad yw hyn i wneud efo rheolaeth tir yna mae'n dderbyniol - Too many "sticky labels" meetings. There may be a need for better balance between farmers and landowners and other users. Possibly too much influence from people who are not dependent on the mountain for their livelihood. Not sure about increasing the number of people who will "look after" for Snowdon. If this is not to do with land management then it is acceptable.*
- Amser yn brin i ni fel ffermwyr! Ond y cyfle i gael ymateb ar lein yn ddefnyddiol iawn - Time for us as farmers is very scarce! But the opportunity to give an online response is very useful.*
- O'm rhan fy hun. mae wedi bod yn llwyddiannus. Rhoddais fy marn trwy alw mewn, ac mewn sesiwn efo grwp ffocws. Ond mae gen i bryderon, yn gyffredinol, am ymgynghoriadau (wedi bod yn rhan o rai yn fy ngwaith blaenorol). Mae 'na beryg nad ydynt yn gwbl gynrychioladol, ac fod pobl efo rhywbeth penodol sy'n eu poeni, neu agenda benodol, yn cael gormod o lais. Rhaid sicrhau fod y farn a gesglir yn ddarlun teg a chytbwys, ac wedi'r cwbl, system ble mae gennym gynrychiolwyr a staff proffesiynol a gwybodys yr ydym yn ymddiried ynddynt i wneud penderfyniadau drosom, sydd gennym. Hefyd, o fod yn gweithredu system fel hyn (ymgynghori) a chasglu barn, mae'n rhaid ymateb iddo a gweithredu ar y farn - rhaid iddo beidio bod yn ymarfer gwag - Of my own part, it's been successful. I gave my opinion by calling in, and in a session with a focus group. But I have concerns, in general, about consultations (have been part of some in my previous work). There is a danger that is not totally*

representative, and people with a certain thing that worries them, or a particular agenda, have too much voice. It must be ensured that the views collected are a fair and balanced picture, and after all, a system where we have representatives and professional and informed staff that we trust in making decisions for us, which we have. Also, to be operating such a system (consulting) and gathering opinions, it must be responded and acted on - it must not be an empty exercise.

- *A lot of people were included in the first public consultation and since then very little involvement for locals unless stakeholder organisations*
- *Perhaps, for the first time in over 35 years, SNP and Gwynedd Council will recognise the importance of the Western slopes of Snowdon and afford the residents and visitors a regular and reliable transport system with ample parking availability*
- *We moved into the area after the first consultation but pleased that process remains open and had a an opportunity to review.*
- *Despite living 3m from Yr Wyddfa, and working throughout Gwynedd and Môn in a tourism-supporting industry, today is the first I've heard of this consultation. That gives the impression of it already being a 'closed shop'.*
- *I only heard about this consultation by email on 20th June - it closes on 9th July - not much time! I regularly attend the SNLAF meetings, but there has been very little on the Plan there. It may have been better to have more input from user groups on the partnership. There seems little on walking at low level, cycling or horseriding. This draft plan seems to concentrate on farming.*
- *Trwy gydol y broses, mae llawer iawn o gyfleoedd wedi bod i mynegi barn. Ac mae pobl wedi bod mwy na pharod i wrando ar wahanol leisiau - Throughout the process, there have been a lot of opportunities to express an opinion. And people have been more than happy to listen to different voices.*
- *I was involved only later on, for professional reasons but feel as though I have still been able to give an opinion.*
- *Its good that everyone's views can be heard.*
- *Cytuno ei fod wedi bod yn broses agored ac hawdd i gyfrannu - Agree that it has been an open and easy process to contribute to.*
- *Mae ymdrech arbennig wedi ei wneud i gynnwys pawb yn y broses ymgynghori - A special effort has been made to involve everyone in the consultation process.*
- *Mae cyfleon i ni fel sefydliad gynnig sylwadau wedi cymryd lle yn rheolaidd drwy'r broses. Fel unigolion mae'r cyfle wedi bod yn llai - ond mae'n deg nodi ei fod wastad wedi bod yn amserol fel rhan o'r broses ymgynghori - Opportunities for us as an organization to offer comments have taken place regularly through the process. As individuals the opportunity has been less - but it is fair to say that it has always been timely as part of the consultation process.*

- *No involvement up until the release of the draft plan (I didn't hear about the open events such as the drop-ins/seminars, but wasn't actively looking) - this survey has been very useful in allowing contribution of ideas.*
- *This is my first involvement and I feel that the outdoor providers sector has not been consulted*
- *Good, I like the on-line methodology*
- *I am not aware of anyone contacting us to discuss the plan before this consultation process. However **I would be very happy for members of staff of Gwynedd Archaeological Trust to contribute in future stages.** Staff at the Trust have considerable knowledge relating to the historic environment of Snowdonia, and we maintain the regional Historic Environment Record, as well as providing advice to local authorities and the Park on planning related issues.*
- *Well I must admit I hadn't heard a lot about it*
- *I have lots of ideas but there is limited space on this survey*
- *I think the Snowdonia National Park Authority should be commended for its approach to this project. It is a model for the coproduced management of a complex and challenging. Communication has been excellent and there have been multiple opportunities to feed in to the process at key points.*
- *Unfortunately I missed most of it but this draught plan has been very helpful.*
- *Ddim yn ymwybodol (neu ddim yn cofio) am gamau cychwynnol y broses ymgynghori – Not aware of (or do not recall) the initial stages of the consultation process.*

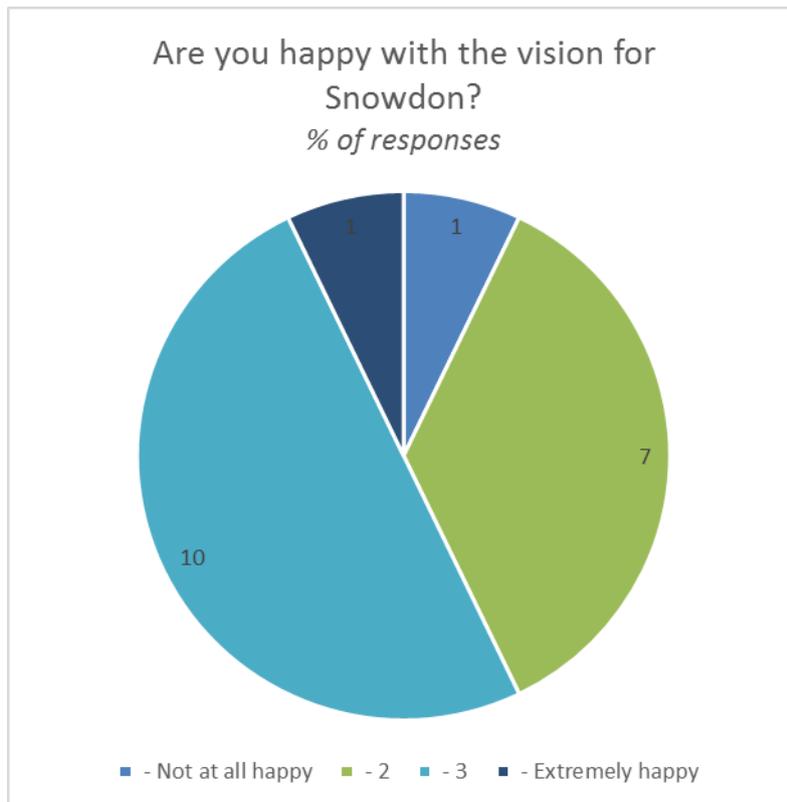

Category 2 - Live or work in North Wales

Comments:

- *I found this presentation surprising but quite informative and interesting, and much easier to peruse quickly than 35 pages of text. Unnumbered pages are an irritation which really becomes infuriating in the next section.*
- *Unfortunately in summer time Snowdon itself has already been spoilt beyond it being a pleasant trip to the summit. This area is not unusual in being spoilt by numerous tourists. With Brexit and the increasing tourist numbers I can only see this getting worse as vacations in the UK become more attractive due to a weak pound. However the area has not been exploited commercially at least not visibly. Whether this is a good thing or not depends on your stand point.*
- *The **graphic for mountain rescue incidents is highly misleading**. Although Snowdon may have the highest number of mountain rescue incidents it also has the highest number of visitors. A more representative illustration would show the number of incidents per visitor - which would show that, per visitor, Snowdon has fewer mountain rescue incidents than either Ben Nevis or Scafell Pike, and that in fact the number of incidents per visitor are just about half of the figure for Ben Nevis.*
- *There are inconsistencies in the data presented. In **the mountain rescue incidents graphic the visitor figures for Yr Wyddfa, Ben Nevis and Scafell Pike are given as 450,000, 119,000, 150,000**. In the Visitors to Snowdon section the figures given are 465,000, 150,000, 190,000.*

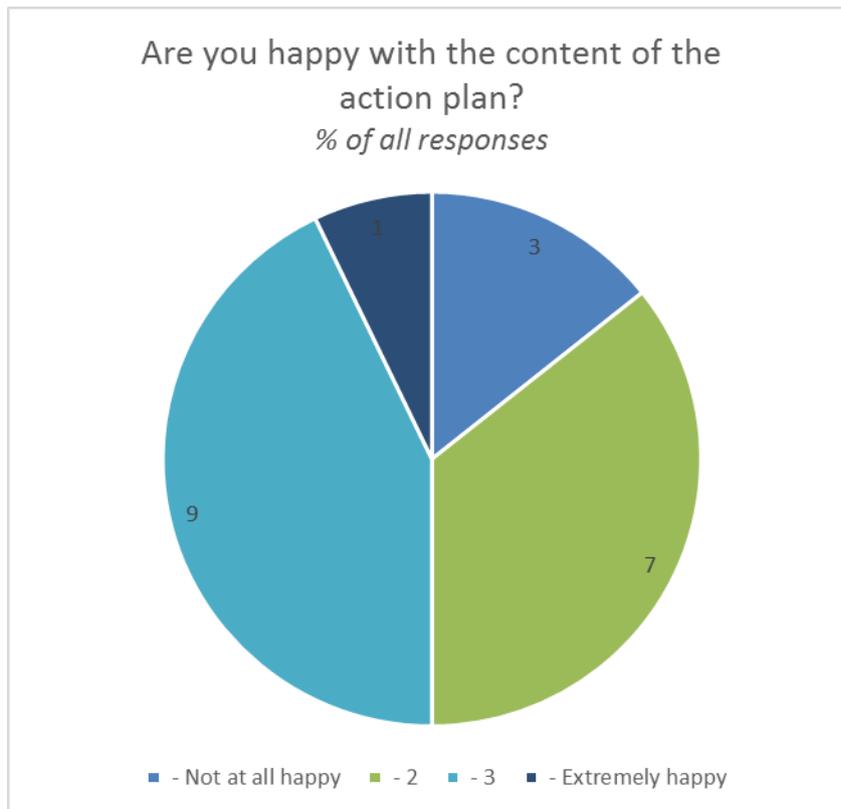

- *In the local people and local economy section the farming figure used in the graphic is for the whole of the Welsh food and drink supply chain industry, not for farming on Yr Wyddfa or Snowdonia. In contrast, the tourism figure given is that just for Snowdonia, not the whole of Wales. **If figures are going to be presented then to avoid giving a misleading impression they should have been presented on an equal basis.***
- *The statistic given on sheep worrying relates to farmers' perception of the cause of sheep worrying. **It would be more appropriate to give the number of incidents of sheep killed or injured (including aborted lambs) by dogs each year,** which could then be compared to the number of visitors for comparison with other mountain areas.*
- *Data needed re parking problems at peak times eg numbers of parking tickets issued when car parks are full.*
- *Info re current tourist info centres, as far as I know only volunteer run one in Llanberis.*
- *Info on where wardens are based. As far as I know just at Penypass, Not at other trail heads*
- *No mention of poor quality grassland, poor tree cover at low altitudes, overgrazing of much of the woodland, and visual intrusions such as unnecessary signage. No mention of damage by current hydro schemes. No mention of two significant invasive species - New Zealand willow herb (eg on arctic-alpine sites in Cwm Glas Mawr) and Sitka spruce volunteers from neighbouring plantations.*
- *<http://www.nationalparks.gov.uk/students/whatisanationalpark/factsandfigures> The visitor spend figure I assume comes via this report, which itself takes the figure from another report and so the methodology is not clear. None of these reports indicate how many visitors from outside of Wales drive in with a full tank of fuel and sandwiches and then leave without spending a penny. This is anecdotal but in my experience it is a large number.*
- *Too pretty. No negatives shown... No proper pictorial representations of quantities of litter, results of traffic pollution, parking problems, foul (i.e. dangerous) weather conditions and real damage to fabric of landscape.*

Comments

- *Cytuno bod yr Arolwg yn un cynhwysfawr - Agree that the Survey is comprehensive*
- *All very worthy, but for much of it, e.g. telecommunications and transport, why 2030? why not now? Platitudes, unnumbered pages, and some bizarre use of English detract from the vision. For example, this word "epic"! Do you mean relating to a long narrative poem? OR are you using the mountaineers' term which means a narrow escape from a very long, difficult and dangerous experience? I don't think you intend to convey either of these, so why not use the word you do mean? **The vision itself is OK, but again, why delay until 2030?***
- *This section goes around the problem of increased tourist numbers without tackling it. Do you encourage or discourage? If you encourage who gets the bill to support the infrastructure needed, the local taxpayer?*
- *It is not clear that the supporting points mentioned in the "what success looks like" section link to the high level vision statements. Although there is a high level vision for a healthy and thriving environment there is no supporting point addressing the issue of climate change, which could have been expected to be major threat. We have already seen that artic char are under pressure. The vision also does not address the conflicts between some of its elements - for example the provision of modern and accessible visitor facilities and improved telecommunications facilities could, if not carried out appropriately, threaten the unique landscape of Snowdonia.*
- *The plan seems comprehensive and, if delivered, should mean the area sees real benefits*

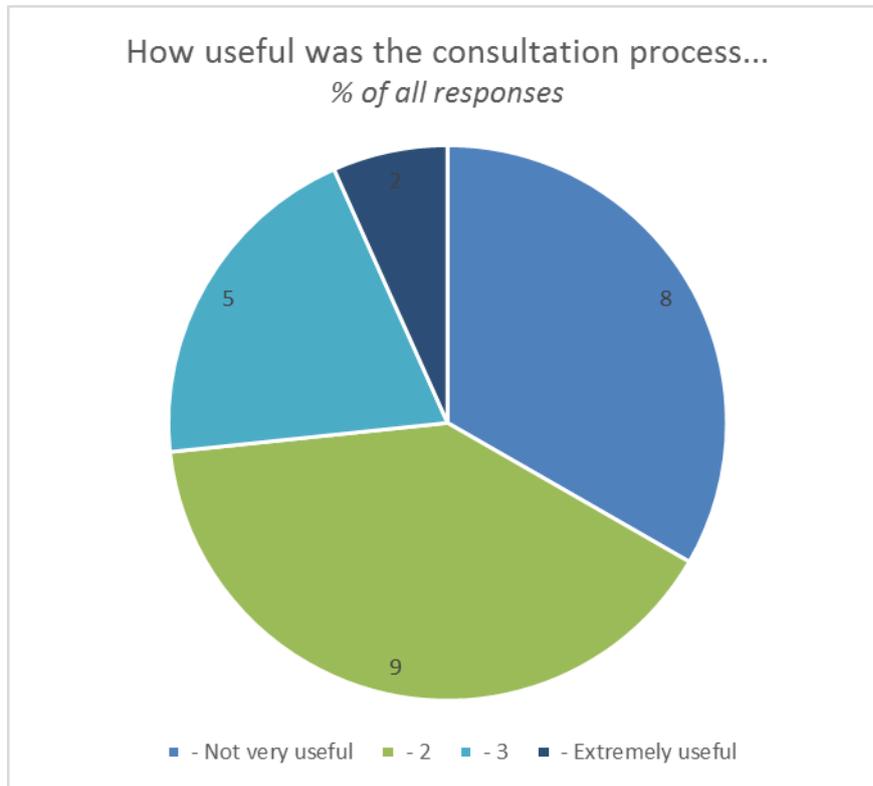

- *Not enough emphasis on protection and conservation of the environment.*
- *Optimistic considering current austerity.*
- *Balanced but avoids difficult questions. How can quality woodland be created and maintained? How can the upland environment be improved and balanced against overgrazing, goats etc? How can any sense of place and wildness be maintained in the presence of increased paths, signage, etc? Has the use of detailed wilderness attribute mapping been considered as a management tool?*
- *Ideally you want as big a tourist spend as possible but that is of no use if the monies do not stay within and circulate within North Wales. Businesses need to be transparent as to who ultimately owns the business, eg Welsh Mountain Railway I believe maybe owned by the Leech Family Trust who are Jersey Resident. They need to employ local people not students from anywhere but North Wales, they need to spend on local suppliers and producers. It is not much use me spending my money to find a proportion has made its way to a tax haven.*
- ***FAR, far too much emphasis on tourism** - saturation level for enjoyment has been reached,, if not exceeded now. Not enough on exploring new,useful, environmentally friendly, potential for the area*
- *If you a rating out of five I would have given three. I think high quality conservation management should be the aim for all Snowdon not just protected sites*

Comments:

- *Cytuno â'r blaenoriaethau a nodwyd a chytuno bod angen sylw penodol i anghenion cymunedau lleol cynhenid ac i hyrwyddo a gwarchod iaith a diwylliant – Agree with the priorities identified and agree that the needs of indigenous local communities need to be addressed specifically and to promote and protect language and culture*
- *Why only refer to buses around Snowdon? Ogwen is an essential part of the Snowdonia tourism/mountaineering ecosystem and must not be allowed to continue to languish unserved by public transport. Thank goodness you do refer also to enabling/providing sufficient parking. After the aberration of the Snowdonia Green Key it is essential that you give us confidence that you do accept the need to allow for personal transport, while also striving to improve public transport which (after an initial useful improvement during your green Key campaign) has deteriorated to the point of being non-viable except in the immediate locality of Pen-y-Pass. All of this requires action now, not just some time towards 2030.*
- *The emphasis on the Welsh language is all very worthy, but when I was young there was no encouragement whatsoever for a young English speaker to make an effort to learn Welsh, and even today most of the native Welsh speakers do not like feeble efforts by incomers and seem to prefer to interact in English, except with each other.*

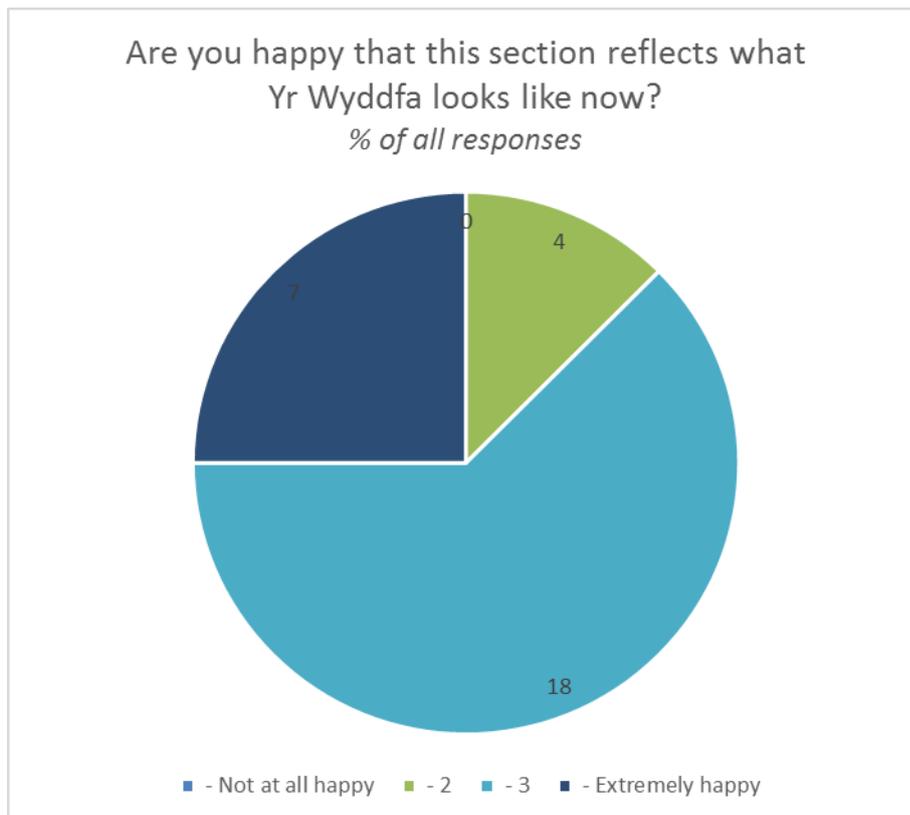

- *The **action plan does not link to the vision**, with the result that it is not clear that even if the plan is fully delivered, the vision will be achieved. The actions don't even appear to address the problems referred to in the action plan section itself.*
- *limited engagement with welsh assembly/central government seen. recent emphasis/campaigns for tourism/visitors e.g epic, year of legends etc have not seemingly struck the right balance with protecting the NP with increasing numbers of visitors.*
- *would like to see more emphasis on protection and conservation of the environment.*
- *Needs more detail. Although online information is becoming more important, printed information remains useful, such as simple route descriptions. These could be made available on Sherpa buses, at tourist info centres assuming there are any, and from wardens at trail heads, given to walkers without any maps. **Wardens need to be more visible**, especially on the Llanberis track where walkers are sometimes inadequately equipped. Maps of walking routes with some safety information could be displayed on the sherpa buses.*
- *See 5 - there is much ambition missing, and much omitted. For example, there is mention of conservation activities in designated areas - why not all of the massif? How will the changing economics of farming and tourism be integrated into a real action plan?*
- *As mentioned business transparency seems to be missing.*
- *I would also suggest a form of congestion charging, in part to fund paths, farmers etc but also that can be used as a voucher system to refund spending in the local area - eg if you spend £20 you would get 3/4 of your congestion charge back for example.*
- *The Rural economy is about everyone who lives here and visitors who spend money here- this section seems to be mostly about landowners and businesses.*
- *Are there enough P and R spaces for the Sherpa to link to? Why ask tourism business about transport user needs? The users and potential users(local and tourist) would be better.*
- *Great to involve young people and promote health benefits. It would be good to have action(s) involving local schools.*
- *Very good idea to have events to encourage more visitors outside summer but Summer and Winter are only two of our four seasons*
- *There appears to be nothing in the action plan addressing the unsustainable impact of the increasing number of inexperienced hill walkers requiring rescue. If visitors to Snowdon generate £69 million per year this should be able to fund professional wardens and rescue provision. Currently the situation could jeopardise rescue provision across Snowdonia - voluntary rescue services evolved as mountaineers helping fellow mountaineers, not providing a service for a major tourist attraction.*

- P41 and p60 unnumbered as already noted. You need to employ better editors and designers if writers can't be trusted to number pages. I responded to the 2015 consultation, including giving apologies for absence from meetings which I would have liked to attend. I was greatly dispirited by the lack of acknowledgement or any subsequent follow through in terms of newsletters, announcements of future consultation etc. I was astonished yesterday to receive the BMC newsletter with info about this present consultation, with a 24-hour deadline only, but I have stopped what I was doing in order to attempt a response within the time, because I think what you are doing is important. **Your communications, however, are atrocious - or are they just non-existent?***
- How useful it will be will only be decided by the extent to which the issues I have raised are addressed.*
- This is the first I have been aware of it*
- given that most visitors are from outside the area there was little scope for them to be part of the plan by attending workshops, forums, seminars, events, meetings, drop-ins etc. and not everyone is signed up to e-newsletters. perhaps other methods like very short surveys on twitter etc*

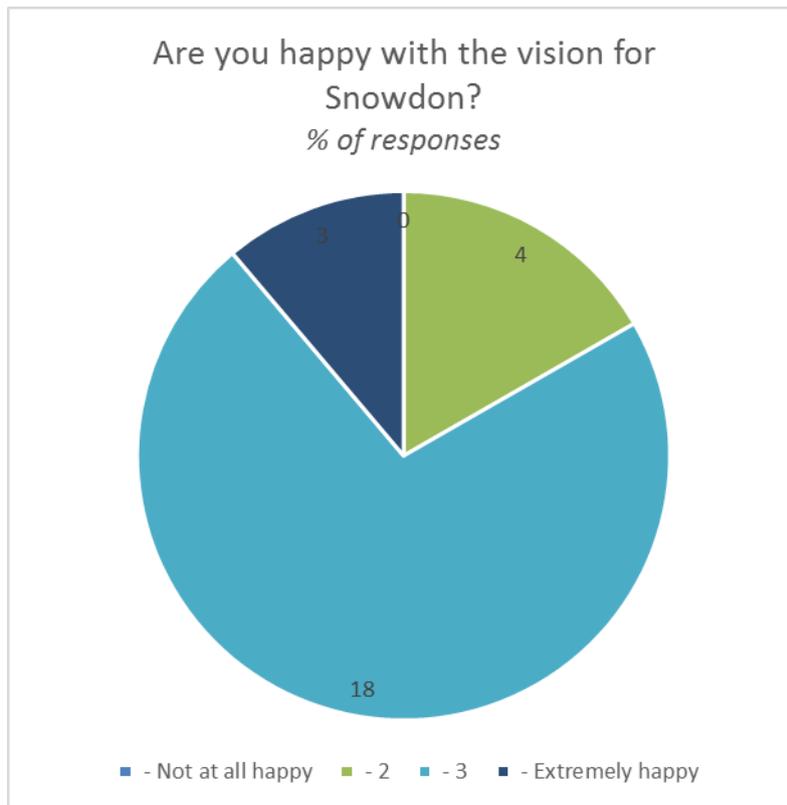

- *Only saw this today, one day before the end of the consultation period. Walking and climbing groups eg BMC and ramblers etc should have been involved*
- *There have been opportunities to contribute, but there has also been a feeling of the professional bodies bringing their existing agendas to the table. As a result, there is a lack of ambition and new vision.*
- *It will not reach enough people and even fewer will respond - control of the questions is not with the respondent.*
- *It won't make any difference.*
- *I have only become aware of this with the publication of the plan. I do not live in the immediate area but I am Chair North Wales Ramblers and walking is a huge part of tourism for Yr Wyddfa/ Snowdon.*
- *This is my first involvement*

Category 3 - Regularly visit the area [visitor]

Comments:

- *Generally happy with the section.*
- *As expected from a project of this scale, the review of current info is well researched.*
- *The opening to this section (background image on page 14) immediately prejudices the section as a busy tourist spot. Why not have two images, the one you have, and another with nobody at the top - the reality of Snowdon the vast majority of the time.*
- *I sense huge and increasing numbers visiting Yr Wyddfa now, a large proportion in organised groups which I think reflect the ambitions of organisers of outdoor pursuits and management training courses and also of alleged 'charity' events. Few that I see even look around at the view, or gaze at the flora and fauna, preferring to spend their time texting friends and taking selfies.*
- *I felt it was very well done.*
- *good report*
- *it seems comprehensive having taken into account lots of different factors*
- *I love this area of the UK. In recent years there feels to have been an improved focus on better presentation of the beauty of the area. Things like the improvements to Pen-y-Pass and the YHA there. The villages still feel a little tired although I can understand the difficulty of trying to cater to tourists who are not there all year round, as well as to locals and their needs. Litter is still a problem in some well travelled places but this has improved.*
- *Ydy, nid yw'r data ynghylch y Gymraeg yn adlewyrchu'r ardaloedd sydd efallai wedi gweld gostyngiad yn y nifer a'r canran sy'n siarad Cymraeg - Yes, the Welsh language data does not reflect the areas that may have seen a decline in the number and percentage that speak Welsh.*

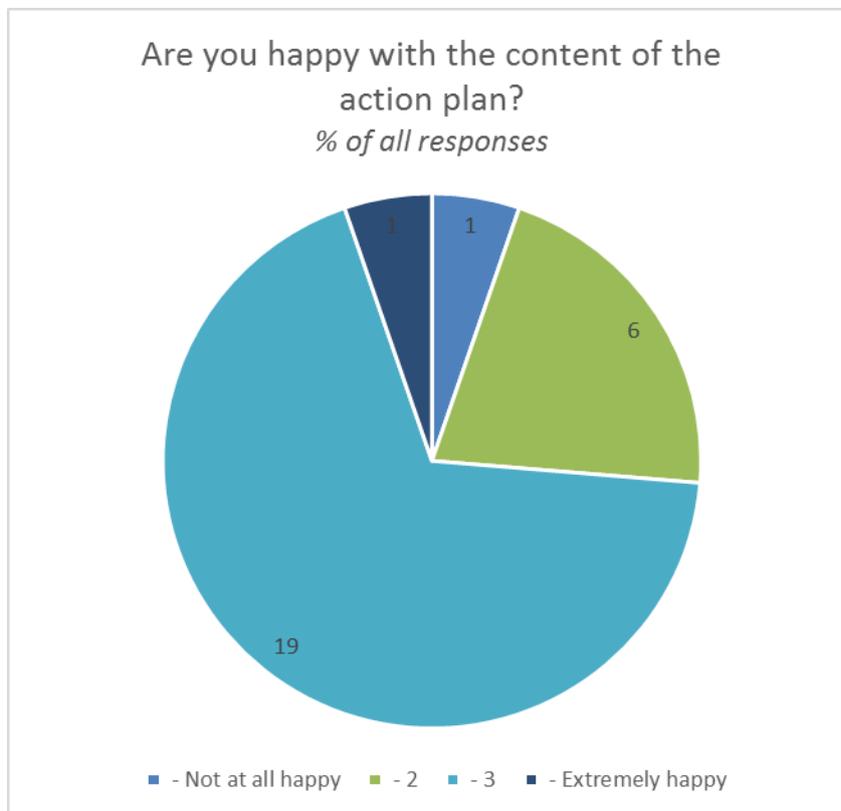

Comments:

- *I paid into the fund too when Anthony Hopkins donated 3m because I would like people to enjoy the great mountain. My overall impression is that it is in good clean condition with decent facilities for all.*
- *Happy with the overall vision, **care needs to be exercised if funding limits opportunity** - especially to the voluntary sector.*
- *there is an understanding of how more visitors will affect the area, and what can be done to protect it. the projected numbers may be underestimated*
- *It's difficult to see how even such a carefully thought-out plan as this can be certain of translating into real protection on the ground for footpaths, species and - it has to be said - local culture. I wish the organisers of the plan well and will support the Plan.*
- *The visiion does not seem to go far enough in creating a sustainable environment.*
- *I am more of a conservationist, so the whole 'motorway' to the summit is a bit abhorrent to me. However, I value the area, and the people, so I can see the fine line which needs to be tread, between getting as many paying visitors into Snowdonia, and limiting their impact on the landscape. I feel we would do better to err on the side of caution. Once we lose nature, we only seem to make it worse when we try to restore it to what we humans think it should be.*
- *I fear you have a very difficult and uphill task, (for which I have deep sympathy with you all) tackling the issues with public awareness of Snowdonia, the people who live and*

work there, the landscape, ecology, and how to be safe on the hills and mountains, along with respecting the environment, not dropping litter, not damaging property etc. While there is access to safety information, not everyone seems to be able to find it, knows how to look for it, nor do they often appreciate that people live and work in this wonderful place they are visiting! Then, there's those who just don't care, they're on holiday and that's it. It breaks my heart as much as it breaks yours.

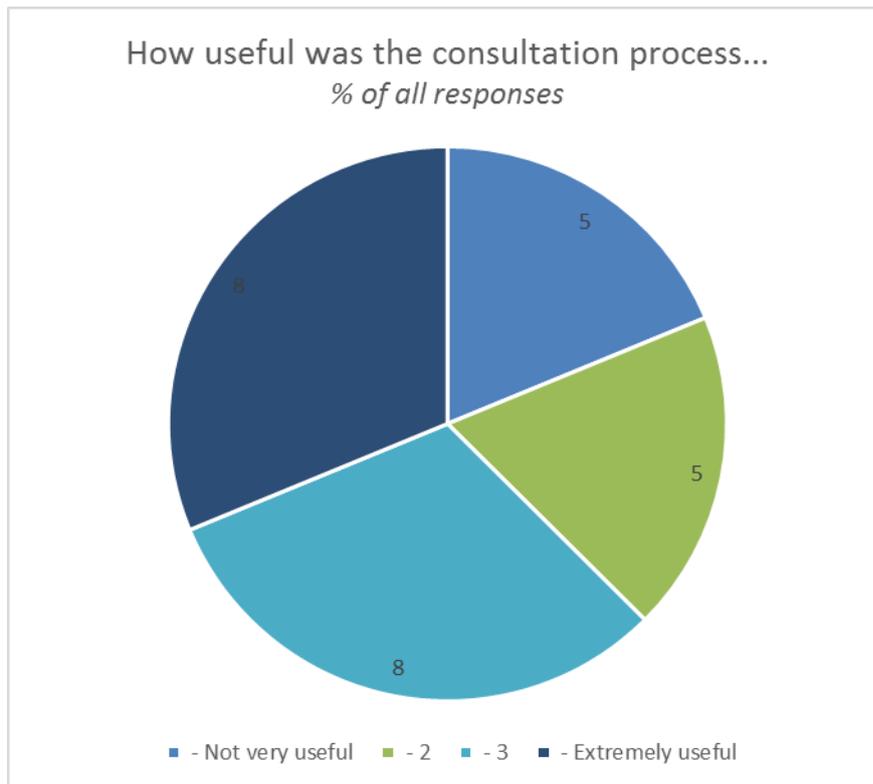

- Seeks to achieve a reasonable balance between commerce and conservation
- something needs to be done
- i think you need to consider keeping more people off the mountain - less trains per day in peak season
- all measures seem to be voluntary - control of dogs needs to be improved and **there is a need for a park and ride scheme**. There is simply insufficient parking in Snowdonia.

Comments:

- Voluntary initiatives seem to be working. Locals are benefiting.

- *The vision is top level - some more detail needs to be put in place ie. some flesh needs to be put on the bones. Generally the vision to make things sustainable is sound.*
- *Improved bus services, please! We've been through a period during which these have been notably unreliable or ill-co-ordinated. Also parking - people are here and here to stay and measures have to be adopted to enable them to access the hills. A lot is said about 'eyesores' caused by cars being parked; however, most cars are gone by the end of the day.*
- *I don't agree with the changing of an established name, ie Snowdon to Yr Wyddfa. It doesn't make sense to change a name that is well known.*
- *It can be difficult to identify actions, but the plan needs to go further in terms of strict management that will be put in place.*
- *Notable in the action to me for its absence is dealing with the increased traffic on and around the mountain. I saw some mention of attempts to encourage use of the Snowdon Sherpa bus, but it seemed to be lacking.*
- *I'm not sure many people will want to participate in the visitor giving proposal - they pay for the train they shouldn't have to pay to access the area itself*
- *Due to a background in project management, I'd prefer to see more specific deliverables and dates.*
- *Yr unig peth ynghylch y Gymraeg yn y cynllun gweithredu yw'r nod i gynyddu'r nifer o hyfforddwyr sy'n gallu siarad Cymraeg, Nid yw'r gweledigaeth o weld cynnydd yn y nifer o siaradwyr Cymraeg am gael ei wireddu os mai dyna'r unig cam gweithredu. Nid oes son ychwaith ar ddyletswydd Awdurdod Parc Cenedlaethol Eryri i gydymffurfio gyda safonau hybu Comisiynydd y Gymraeg, sy'n rhoi dyletswydd statudol iddyn nhw sicrhau bod cynnydd yn y nifer o siaradwyr Cymraeg yn yr ardal. Dylech ystyried cydlynu gyda'r Awdurdod ar gyfer gwireddu eich gweledigaeth chi - The only thing about the Welsh language in the action plan is the aim of increasing the number of trainers who can speak Welsh, the vision of an increase in the number of Welsh speakers will not be realized if that is the only action. Neither is the Snowdonia National Park Authority's duty to comply with the Welsh Language Commissioner's promotion standards, which give them a statutory duty to ensure that there is an increase in the number of Welsh speakers in the area. You should consider co-ordinating with the Authority to realize your vision.*
- *Extending the tourist season into winter means that the hills will be crowded all year and I'll never again see the wilderness of my youth*

Comments:

- *Have only recently come across it so other than being a good hillwalking ambassador, havent done much.*
- *Understanding the visitor group demographic is very hard. I don't believe you have covered all groups evenly. However, this may simply be from the perspective of eg. a walker etc. Many volunteer groups use the mountain or the area for different purposes, care needs to be taken to ensure future use in this respect.*
- *even though I enjoy an outdoors lifestyle, i wasn't aware of the consultation until well in to the process, despite spending a good deal of time in the area and being a BMC member for several years. I'm not sure how it could have been improved as i'm not sure how i didn't know about it.*
- *Clearly a lot of effort and a good process here*
- *I suspect my views would not be popular to those who wish to push for ever-increasing numbers of people accessing Yr Wyddfya. The culture of inclusiveness is adding intolerable pressures to a very finite resource.*
- *It's good that people are being asked, however, these questions are of too narrow a nature.*
- *I've only just heard about it, on the 6th July. I have been in and around Llanberis recently, early April, late May, early June, and saw nothing.*

- *I only found out about the plan and the opportunity to contribute on 6 July*
- *Didn't hear about it till now so had no chance to contribute*
- *Every little bit helps.*

Appendix 2: Snowdon Landowners Meeting - 29.6.17

<p>Partneriaeth Yr Wyddfa – Snowdon Partnership Cyfarfod Tirfeddiannwyr – Landowners Meeting 29.06.17 Snowdonia Parc, Waunfawr 17:00-18:30</p>

Yn bresennol / Present	
Iestyn Pritchard (IP)	NFU Cymru
Jo Davies (JD)	Hafod Lydan
Fiona Davies (FD)	Llwyn Celyn Bach
Geraint Owen (GO)	Cil y Mynydd, Ystrad Betws Garmon
Edgar Williams (EW)	Ffridd Isaf, Rhyd Ddu
Edgar V Williams (EVW)	Bron Fedw Isaf, Rhyd Ddu
Gwynedd Watkin (GW)	UAC/FUW
Marc Owen (MO)	Ystrad Isaf, Betws Garmon
Charles de Winton (ChW)	CLA Cymru
Alwyn Williams (AW)	Garreg Fawr
John Hardy (JH)	Clogwyn y Gwin
Adam Daniel (AD)	Parc Cenedlaethol Eryri / Snowdonia National Park
Carwyn ap Myrddin (CM)	Parc Cenedlaethol Eryri / Snowdonia National Park
Helen Pye (HP)	Parc Cenedlaethol Eryri / Snowdonia National Park
Rhys Owen (RhO)	Parc Cenedlaethol Eryri / Snowdonia National Park
Rhys Wheldon Roberts (RhR)	Parc Cenedlaethol Eryri / Snowdonia National Park
Sion Rhys Roberts (SR)	Parc Cenedlaethol Eryri / Snowdonia National Park

Ymddiheuriadau / Apologies	
Richard Williams	Hafod y Rhisgl
Gwersyll Llyn Gwynant	
Bedwyr Jones	Gwastadanas
Dewi ***	Hafod y Porth

Cofnodion / Minutes

Pwynt Cyfeirnod	Sylwadau a Manylion	Gweithred
<i>Reference Point</i>	<i>Comments and Details</i>	<i>Action</i>
<p>Eitem Agenda 1</p> <p>Agenda Item 1</p> <p>1.1</p>	<p>RhO, cadeirydd y cyfarfod, yn croesawu pawb i'r cyfarfod a nodwyd yr absenoldebau</p> <p>RhO, chair of the meeting, welcomed everyone to the meeting and read out the list of apologies</p>	
<p>Eitem Agenda 2</p> <p>Agenda Item 2</p> <p>2.1</p>	<p>Rhoddodd HP drosolwg o'r broses ymgynghori, crynodeb o'r materion a godwyd yn y cyfarfod tîrfeddianwyr gwreiddiol a'r rôl mae'r cynrychiolwyr/undebau wedi chwarae yn y broses</p> <p><i>HP gave an overview of the consultation process, a recap of the issues raised in the original landowners meeting and the role the union representatives have played in the process</i></p>	
<p>2.2</p>	<p>Prif faterion a godwyd yn wreiddiol yn cynnwys:</p> <ul style="list-style-type: none"> • Diffyg parch (e.e. cŵn oddi ar dennyn, cerdded dros a difrodi waliau, sbwriel ac ati) • Digwyddiadau elusennol/Digwyddiadau (dim cyfathrebu a thîrfeddiannwyr a ddim yn talu) • Parcio a thrafnidiaeth (Dim digon o lefydd a pharcio mewn llefydd peryglus) • Llwybrau a mynediad (pobl yn mynd oddi ar lwybrau) • Marchnata Croeso Cymru <p><i>Main issues raised previously included:</i></p> <ul style="list-style-type: none"> • <i>Lack of respect (e.g. dogs not on leads, walking on and damaging walls, littering etc)</i> • <i>Charity events/Events (no communication with landowners and don't pay)</i> • <i>Parking and transport (not enough spaces and people park in dangerous places)</i> • <i>Paths and access (people going off paths)</i> • <i>Visit Wales marketing</i> 	
<p>2.3</p>	<p>HP - Cynllun am ddangos be mae'r Bartneriaeth am ei wneud erbyn 2030 a sut bydd adnoddau yn cael eu defnyddio - hwn yn gyfle i chi ddeud os oes unrhywbeth wedi cael eu fethu. Gall y ddogfen gael ei ddefnyddio fel dull lobïo i ddenu buddsoddiad mewn i'r ardal</p> <p><i>HP – The Plan shows what the Partnership will do by 2030 and how resources will be used – this is an opportunity for you to tell us if anything has been missed. This document could be used as a lobbying tool in order to attract investment into the area</i></p>	

2.4	<p>GW – falch o gael bod yn rhan o’r broses ac yn cynrychioli tîrfeddianwyr / amaethwyr er mwyn cael cydbwysedd rhwng yr ochr werdd a thîrfeddianwyr – rhoi llais i ffermwyr. ChW yn cytuno ac yn gefnogol iawn i’r Cynllun ac Eryri yn arwain y ffordd ar y math yma o brosiect o’i gymharu a ardaloedd/Parciau eraill</p> <p><i>GW – happy to be part of the process and to represent landowners / farmers in order to have a balance between the green side and landowners – giving a voice to farmers. ChW agrees and very supportive to the Plan and Snowdonia are leading the way in this type of project, when compared to other areas/Parks</i></p>	
2.5	<p>ChW – Twristiaeth yn bwysig ond pwysig peidio anghofio amaethwyr yn yr holl beth, felly mae’n dda bod amaethwyr yn cael eu gweld fel rhan allweddol o’r Parc a ambell ‘quick win’ wedi eu cyflawni yn barod</p> <p><i>ChW – Tourism is important but important to not forget about farmers so it’s great to see that farmers are seen as a key part of the Park and some ‘quick wins’ have already been achieved by this project</i></p>	
	<p>IP – NFU wedi bod yn ran ers y dechrau a mae be mae’r Cynllun yn ceisio ei gyflawni yn drawiadol, h.y. cysylltu tîrfeddianwyr, defnyddwyr tir ac ymwelwyr. Mae perthynas y Parc a thîrfeddiannwyr yn llawer iachach yn Eryri nag ardaloedd eraill yng Nghymru. Hon yn ddogfen gytbwys iawn sydd yn anodd i’w chyflawni o ystyried diddordeb pawb yn yr ardal.</p> <p><i>IP – NFU has been involved since the start and what the Plan aims to achieve is striking, i.e. connecting landowners, users of the land and visitors. The relationship between the Park and landowners in Eryri is much healthier than in other parts of Wales. This document is well balanced which is difficult to achieve when considering the varying interests people have in the area.</i></p>	
<p>Eitem Agenda 3</p> <p>Agenda Item 3</p> <p>3.1</p>	<p>HP – Mae’r mater o ‘barch’ wedi cael ei roi fel pwynt rhif 1 ar dudalen 38 o’r Cynllun. Canolig iawn i bawb a wedi taro pwynt cryf. Angen gwneud siwr fod pobl yn gweld yr ardal fel rhywle i barchu a nid dim ond ei ymweld. Partneriaid i gyd am fod a’r ru’n un neges am Yr Wyddfa a phasio y neges o barch ymlaen i bobl</p> <p><i>HP – The issue of ‘respect’ has been put down as point 1 on page 38 of the Plan. This point is central to everyone and has been put forward strongly. Need to make sure that people see the area as somewhere to respect and not just as a visitor attraction. Partners will all have a shared message about Yr Wyddfa to pass on to people</i></p>	
3.2	<p>ChW – holi os oes modd rhoi rhid tudalen ar bob tudalen</p> <p><i>ChW – asks if page numbers can be put on every page</i></p>	Tîm Partneriaethau
3.3	<p>HP – Tudalen 47 yn dangos y sefyllfa bresennol a lle hoffem fod, a sut am fynd ati a chyflawni hynny – neud siwr fydd y partneriaid i gyda gyda’r ru’n un neges. Bwriad o greu tudalen wê er mwyn cael un neges gyson gen bawb</p>	

	<p><i>HP – Page 47 shows the current situation, where we would like to be and how we plan to get there – need to make sure that all partners have the same message. Intention of creating a website to get one message from everyone</i></p>	
3.4	<p>Rhoddodd CM ddiweddariad ar gynllun ‘young rangers’ – lot o waith gyda cymunedau ac ysgolion lleol wedi ei gyflawni. Bu teithiau ysgol i fferm JD a FD a pawb wedi mwynhau. Gwaith hefyd yng ngardd cymunedol Beddgelert a gweithio gyda Plas Gwynant sydd yn dod a phlant o bell a wardeiniaid y Parc yn cynnal gweithgareddau efo nhw a pasio y neges o barchu cefn gwlad ymlaen</p> <p><i>CM gave an update on the ‘young rangers’ scheme – a lot of work has been done with local communities and schools. School visits were made to JD and FD’s farm which everyone enjoyed. Work has also been done in Beddgelert’s community garden and also work with Plas Gwynant who bring children in from far away. The Park’s wardens have been holding activities with them and passing on the message of respecting the countryside</i></p>	
3.5	<p>RhR – ers mis Medi/Tachwedd 2016, mae yna bob ifanc lleol wedi bod yn helpu am ddiwrnod o’r mis er mwyn dysgu sgiliau, cadwraeth, mynediad ac ati, gyda’r bwriad o wella eu parch/ymwybyddiaeth o’r materion o oed cynnar. Cynllun peilot a wedi bod yn lwyddiannus hyd hyn</p> <p><i>RhR - Since September/November 2016, young local people have been helping out for a day a month in order to learn skills, conservation, access etc, with the intention of increasing their respect/awareness of issues from an early age. A pilot scheme which has proved successful so far</i></p>	
3.6	<p>CM – wedi gwneud lot o waith efo pobl lleol ond angen gwneud siwr bod ymwelwyr yn dysgu am barch hefyd. Wedi gwneud gwelliannau o ran negeseuon a mynediad at wardeiniaid ym Mhen y Pass hefyd</p> <p><i>CM – have undertaken a lot of work with local people but also need to make sure that visitors learn about respect. Have made improvements in terms of the messages given out and access to wardens in Pen y Pass</i></p>	
3.7	<p>EW – gwaith canmoladwy iawn, blynyddoedd yn ol roedd wardeiniaid yn mynd at blant ysgol yn Lloegr ac ati er mwyn eu addysgu. RhO – mae gwasanaeth addysg y Parc yn gwneud rhywfaint o hyn ond adnoddau yn fater l’w ystyried. CM – Plas Tan y Bwlch yn gyfle i wneud hyn gyda plant sydd wedi dod o bell. AD – Hyfforddi yr hyfforddwyr mewn canolfannau awyr agored I basio negeseuon ymlaen hefyd</p> <p><i>EW – praised the work being done. Years ago the wardens used to visit schools in England in order to educate them. RhO – the education section within the Park is doing some of this but resources is an issue. CM – Plas Tan y Bwlch is a good opportunity to do this with children staying from far away. AD – Educating/training the instructors in outdoor centres to pass the messages on.</i></p>	

3.8	<p>CM – wardeiniaid gwirfoddol rhwng mis Mawrth a Hydref gyda tua 4 bob dydd Sadwrn/Sul. Mynd ati i gerdded llwybrau, casglu sbwriel a rhoi cyngor i bobl a rhoi gwyneb i’r Parc ar y mynyddoedd. IP – sut mae pobl yn ymateb iddynt? CM - llawer ddim eisiau gwybod ond llawar yn dangos diddordeb. Mae nifer y gwirfoddolwyr yn golygu na chaiff unrhyw ochr o’r mynydd ei anghofio/anwybyddu</p> <p><i>CM – volunteer wardens between March and October – around 4 every Saturday/Sunday. They walk the paths, collecting litter and give advice to walkers and provide a presence for the Park on the mountains. IP – do visitors engage with them? CM – many don’t want to know while many show interest. The number of volunteers means no side of the mountain is forgotten about</i></p>	
3.9	<p>AD – Grant gen Lywodraeth Cymru ar gyfer cael fan dehongli. Gallai ddysgu pobl am y côd cefn gwlad a diogelwch, a’r ffaith ei fod yn symudol yn golygu gall y neges gael ei chyfleu ym mhobman. GO – syniad iddi ymweld a meysydd gwersylla hefyd</p> <p><i>AD – Grant from Welsh Government for an ‘interpretation van’. Can help in educating people about the countryside code, and the fact that it is mobile will mean that the message can be given out in all locations. GO – an idea for it to visit camping sites</i></p>	
3.10	<p>HP – Cynllun Rhodd Ymwelwyr – arian nol at yr ardal e.e. prosiectau penodol ac isio cymunedau ddweud yn y dyfodol pa brosiectau ddylai gael y cyllid. Dal angen mwy o fusnesau i brynu mewn i’r syniad, ac angen tua 200 ohonynt er mwyn cael effaith gwirioneddol ond y neges o barch yn byswig ynghyd ar pres</p> <p><i>HP – Visitor Giving scheme – money back to the area e.g. specific projects and in the future will want communities to tell us which projects should receive funding. We still need more businesses to sign up – around 200 would make a real impact, but the message of respect is important alongside the money</i></p>	
3.11	<p>ChW – Digwyddiadau – yn aml ddim yn dweud i neb eu bod yn dod – dod yma, gwneud pres ac yna gadael – angen ceisio eu cywilyddo rhywsut neu cyflwyno system trwyddedu er mwyn cael pres i’r cymunedau ganddynt</p> <p><i>ChW – Events – often don’t tell anyone that they are coming – come here, make money then leave – need to try and shame them somehow or implement a licencing scheme in order to get money back to the communities</i></p>	
3.12	<p>HP – Pete Rutherford (APCE_ wedi trafod efo’r LAG ynglyn a digwyddiadau ac yn eu ennog i gyfrannu e.e. drwy Rhodd Eryri</p> <p><i>HP – Pete Rutherford (SNPA) has discussed with the LAG about these events and encouraging them to contribute e.g. through Rhodd Eryri</i></p>	
3.13	<p>HP yn cyfeirio at dudalen 46 o’r Cynllun. GW yn nodi y gellir awgrymu’n gryf yn yr adran yma o’r Cynllun, fod unrhyw ddigwyddiadau yn trafod gyda tirfeddianwyr. HP – hyn wedi ei nodi yn barod yn y LAG</p>	

	<p><i>HP – referred the group to page 46 of the Plan. GW noted that this section could be used to strongly suggest that events contact landowners prior to arranging. HP – this already been noted within the LAG</i></p>	
3.14	<p>ChW – Ceisio sefydlu gwell cyfathrebu rhwng Cyngor Conwy, Cyngor Gwynedd a’r Parc Cenedlaethol, o ran trefnu digwyddiadau, fel gweithred. HP – hyn yn y Cynllun yn barod, i’w sefydlu o fewn 5 mlynedd a fe fydd fframwaith monitor yn cael ei sefydlu hefyd</p> <p><i>ChW – try and establish better communication between Conwy Council, Gwynedd Council and the National Park regarding events as an action. HP – this is in the plan to be established within 5 years and a monitoring framework will be set up as well</i></p>	
3.15	<p>Nododd JH ac EW nad oedd unrhyw un wedi cysylltu a nhw ynglŷn â digwyddiadau mewn 8 mlynedd. GW – dyma un o’r pethau fydd y Cynllun yn ceisio ei wella</p> <p><i>JH and EW noted that no-one had contacted them regarding events in 8 years. GW – this is one of the things that this plan will try and address</i></p>	
3.16	<p>JH – mae gweryslla gwyllt yn broblem. GO – dim cysylltiad a thirfeddianwyr ynglŷn â’r ‘Fell Race’</p> <p><i>JH – wild camping is a problem. GO – no contact with landowners in terms of the ‘Fell Race’</i></p>	
3.17	<p>EVW – lot o’r trefnwyr digwyddiadau yn dweud eu bod yn casglu pres i elusennau, ond ddim yn siwr gyda rhai. Angen ffordd o wneud iddynt dalu gan nad oes llawer ohonynt yn dangos dim parch ac os fyddai raid iddynt dalu efallai byddai hynny’n newid. RhO – unwaith mae rhai o’r trefnwyr yn gweld mai dim y Parc sydd berchen y tir, nid ydynt yn trafferth cysylltu a’r tirfeddiannwr. HP – mae gennynt hawl cyfreithiol i redeg digwyddiad ar lwybr troed ond yn torri’r gyfraith os yn mynd oddi arno.</p> <p><i>EVW – a lot of the event organisers say that they are collecting money for charities, but doubt it in some instances. Need a way to make them pay since many don’t show any respect to the area, and if they had to pay then that may change. RhO – once some of the organisers see that the Park don’t own the land they don’t bother contacting the landowner. HP – they have a legal right to run events on footpaths, but break the law if they go off it i.e. they must have permission from the landowners to run an event on open access land</i></p>	
3.18	<p>RhO – dros y 5 mlynedd nesaf gall yr awdurdodau i gyd roi system at ei gilydd a olygai fod pawb yn gwybod pan mae yna ddigwyddiad ar y ffordd. HP – nodi mai dyma pam mai’n bwysig cael ebost /rhif ffon pobl er mwyn gallu cysylltu’n gyflym a nhw e.e. os trafferthion sbwriel, digwyddiadau ac ati.</p> <p><i>RhO – over the next 5 years the authorities could create a joint system which meant that everyone knew when an event was coming. HP –</i></p>	

	<i>this is why it's important to get people's email/phone number in order to get in contact quickly e.g., if littering issues, events etc</i>	
3.19	<p>GO – motobeics yn broblem ar Moel Eilio HP – angen dweud wrth yr heddlu am hyn. RhO – werth ceisio tynnu llun o'r cerbydau a'u dangos i'r heddlu. ChW – pwysig cadw dweud wrth yr heddlu er mwyn iddynt adnabod patrymau a cael presenoldeb ar ddyddiau ble meant yn debygol o fod yno. HP – mwyaf byd gnewch chi gysylltu a'r heddlu yna mwya tebygol ydyn nhw o geisio atal y broblem</p> <p><i>GO – motorbikes a problem on Moel Eilio. HP – need to notify the police regarding this. RhO – worth attempting to take pictures of the vehicles to show the police. ChW – important to keep telling the police about it so that they can recognise patterns and have a presence on days likely to be an issue. HP – the more its reported the more likely the police are to do something about it</i></p>	
3.20	<p>EVW – niferoedd yn cymryd rhan yn y 'Rat Race' yn tua 1200 o bobl. Mae hyn yn creu difrod mawr i'r tir a rhoi pwysau ar adnoddau'r Parc a thirfeddianwyr. EVW wedi gofyn iddynt gyfrannu pres i'r Ambiwylans Awyr a wedi cael £250 flwyddyn ddiwethaf. Hyn wrth ystyried fod pob person a gymerodd rhan yn talu £150 i wneud hynny. HP – Mae Pete Rutherford (APCE) wedi bod yn trafod hyn a efallai y byddai'n syniad iddo adrodd nol ar ei gyfarfodydd drwy'r LAG</p> <p><i>EVW – the number taking part in the 'Rate Race' is around 1200. This damages the land significantly and puts pressure on the resources of the Park and landowners. EVW asked them to donate money to the Air Ambulance and received £250 last year. This whilst considering that each person registered had to pay £150 to do so. HP – Pete Rutherford (SNPA) has been discussing this with Rat Race and perhaps it would be an idea for him to feed back to LAG on his discussions</i></p>	<p>Pete Rutherford i adrodd nol</p> <p>Pete Rutherford to report back</p>
3.21	<p>HP – problemau parcio (e.e. dim digon o lefydd, tocynnau parcio, wardens traffig ac ati) CM – Arolwg Cwellyn yn dangos fod lot mwy yn parcio yma nag oedd yn arfer gan ei fod yn cael ei farchnata fel yr ochr dawelach ac yn lwybr haws i fynd fyny'r Wyddfa. Gwaith gwella'r maes parcio wedi ei gwblhau a Cyngor Gwynedd wedi bod yn rhoi llinellau melyn dwbl o gwmpas. JH yn nodi fod llinellau melyn yn gwthio pobl allan o lefydd fel Rhyd Ddu ac fod angen gwell meysydd parcio a gwell system bysiau EVW – dal 30 o geir ar y ffordd yn ystod gwyl y banc er bo llefydd parcio wedi eu gwella</p> <p><i>HP – parking issues (e.g. not enough spaces, parking tickets, traffic wardens etc) CM – Cwellyn survey showed that more people park in this area than did previously as it is being marketed as the quieter side of the mountain and an easier path up Snowdon. Work to improve car park has been completed and Gwynedd Council has completed double yellow lines work. JH – noted that the double yellow lines push people out of villages such as Rhyd Ddu and there is a need for better car parks and better bus service. EVW – still 30 cars parked on the road during the bank holiday despite the car park improvements</i></p>	
3.22	ChW – posibilrwydd parcio ar dir tiffeddianwyr. HP – gallu gwneud hyn am 28 diwrnod heb ganiatad cynllunio, yn cael ei wneud yn Nant	

	<p>Peris RhO a allai CNC chwarae rhan? EVW – nodi pwysigrwydd cael yswiriant felly os am wneud hyn. RhO – posiblirwydd UAC/NFU chwarae rhan yn hyn</p> <p><i>ChW – possibility of parking on landowner land. HP – can do this for 28 days without planning permission, already being done in Nant Peris. RhO – could NRW play a role in this? EVE – important to get insurance if going to do this. RhO – possibility of FUW/NFU playing a part in this</i></p>	
3.23	<p>HP – Llwybrau a mynediad. CM – gwaith llwybrau o flwyddyn i flwyddyn e.e. Mwynwyr, Cwellyn – dau dim o 4 a Hywel yn gyfrifol amdanynt. Blaenoriaethu lle i weithio arno. Gwaith gyda gwirfoddolwyr o ran cynnal a chadw, draenio gwell, gwyneb gwell ar lwybrau a wnaiff helpu sicrhau fod pobl yn cadw i'r llwybrau. RhO yn annog mynychwyr y cyfarfod i annog tirfeddianwyr eraill i gysylltu a'r wardeiniaid os oes unrhyw broblemau</p> <p><i>HP – Paths and access CM – footpath work from year to year e.e. Miners, Cwellyn – two teams of 4 managed by Hywel. Prioritising where to undertake work. Work with volunteers in terms of maintenance, better drainage, better path surfacing, which will all help to ensure that people stay on the paths more. RhO – encouraged those in attendance to tell other landowners to contact the warden team if any problems arise</i></p>	
3.24	<p>CM – Cylchdaith yr Wyddfa – rhain am fod yn lwybrau haws ac annog pobl i aros mewn trefi/pentrefi lleol a chysylltu a chymunedau. HP – pobl lleol yn ei ddefnyddio hefyd. JH – un problem o gynyddu mynediad ydi gwella mynediad cŵn at ddefaid. EVW – creithiau ar fynyddoedd yn broblem a sut ydym am fynd ati i gadw pobl ar y llwybrau. Mae hyn yn creu erydiad sydd yn annodd i'w atal – pwysigrwydd amddiffyn Yr Wyddfa am genhedlaethau i ddod.</p> <p><i>CM – Wyddfa circular route - these will be easier paths and will encourage people to stay within local towns/villages and to connect with communities. HP – local people use them too. JH – one issue with improving access is that dogs have better access to sheep. EVW – scars on mountains an issue and how can we ensure that people stay on the paths. This creates erosion which is hard to halt – importance of protecting Yr Wyddfa for generations to come.</i></p>	
3.25	<p>HP – Marchnata Croeso Cymru – wedi derbyn adborth eu bod yn farchnata gwael o ran hybu Crib Goch a'r peryglon yn gysylltiedig a hyn.</p> <p><i>HP – Visit Wales Marketing – received feedback that it was poor marketing in terms of encouraging use of Crib Goch and the dangers associated with this</i></p>	
3.26	<p>RhO – Brandio cynnyrch – Cig Oen Yr Wyddfa – cael trafodaethau efo FD a JD a syniad o hybu y brand mewn gwestai, bwytai a 'take-aways' lleol a gweld os oes ganddynt ddiddordeb mewn defnyddio'r cynnyrch lleol. Bosib yn rywbeth i'r adran fedru edrych mewn iddo dros y gaeaf.</p>	

	<p>Gobaith o fedru dyblygu'r model e.e. ardal Cadair Idris os yn lwyddiannus. Proses gymhleth ond werth ei ystyried.</p> <p>RhO – product branding – Snowdon Lamb – had discussions with FD and JD regarding the idea of promoting the brand in local hotels, restaurants and takeaways and to see if they have interest in using the product. Possibly something for the department to look into during the winter. Possibility of duplicating the model if successful e.g. Cadair Idris. Complicated process but worth considering</p>	
3.27	<p>HP – tudalen 39, pwynt 4 yn y Cynllun – pwysigrwydd y pwynt 'Amgylchedd iach a ffyniannus'. JH – a all y Parc glymu mewn gyda Glastir? RhO – diddordeb o ran gwneud cynllun ffermwyr lleol yn lle Glastir. HP – mantais PES ydy bod ffermwyr yn gallu penderfyni ar sut i gyrraedd y targed.</p> <p>HP – point 4 on page 39 of the Plan – the importance of the point noting 'A healthy and thriving environment' JH - can the Park tie in with Glastir? RhO – interest in forming a local farmer plan instead of Glastir. HP – benefit of PES is that farmers can decide how they want to reach their target themselves.</p>	
<p>Eitem Agenda 4</p> <p>Agenda Item 4</p> <p>4.1</p>	<p>RhO yn pwysleisio pa mor bwysig ydy hi i bobl roi mewnbwn i ymgynghoriad y Cynllun. GW – disgwyl sylwadau o bob math o feysydd gwahanol felly pwysigrwydd nodi barn da neu ddrwg am y Cynllun a nodi beth sydd yn dda ynddo achos efalli y byddai person/sefydliad o safbwynt gwahanol yn anghytuno gyda'r pwynt</p> <p>RhO highlighted the importance of sharing your views during the consultation period of the Plan. GW – we expect comments from varying viewpoints so it is important to note your views, be it good or bad, and note what it is good within the Plan because perhaps a person/organisation of a different viewpoint might want to take that point out</p>	
4.2	<p>RhO yn diolch i bawb am fynychu ac yn atgoffa pawb mai dyddiad cau yr ymgynghoriad ydy y 7fed o Orffennaf 2017</p> <p>RhO thanked everyone for attending and reminded everyone that the closing date for the consultation is on the 7th of July 2017</p>	

Appendix 3: Drop-in Event - 4.7.17

Summary of feedback from the Snowdon Drop-in event in Llanberis.

Snowdon Today		
Are you happy with the range and accuracy of data included?		
Unhappy	Moderately happy	Very happy
0	0	3
Comments		
General		
Friendly easy to read layout		
Graphics and info very clearly presented – easy to see the facts		
Informative/easy to understand infographics		
Knowledgeable staff		
Very accurate information. Gwybodaeth cywir iawn		
Excellent information provided! Good to see that all of the partners working together.		
Great graphic to show the statistics.		
Challenges to the care of the mountain		
Interesting to see how big a problem litter is – witnessed this first hand and really detracts from the area		
Would be good to collaborate & target anti-social behaviour at the summit (Snowdon Mountain Railway)		
Tourism employment seasonal?		
Need to collaborate to protect the mountain – litter/human waste		
Need to teach the visitor maybe to be more responsible of their litter and for them to respect the mountain. Angen dysgu yr ymwelwyr ella i fod yn fwy cyfrifiol o’i sbwriel ac iddynt parchu y mynydd		
Did you ask people why they visited?		
Annual Cycle		
Seasonality would be interesting to see – what happens when – when are the peaks/worst times – for car-parking/damage		
Local people and the local economy		
Would be good to see the farming statistic for Snowdonia to get a better compassion with tourism.		

Snowdon in 2030 – Our Vision

Are you happy with the vision for Snowdon in 2030

Unhappy

Moderately happy

Very happy

General

Great vision

VISION SET OUT IS EXCELLENT

2030 vision is too long. Need a shorter term plan to address the major issues such as parking at Pen y Pass

FANTASTIC VISION!

Really good, well thought-out vision

Vision looks good.

1. Respect for the mountain, local people, communities, culture and tourism

It's great to hear about the passion for the Welsh language. As a 'newcomer' now living in the Park I want to embrace the language and the culture, as well as the beauty, but I struggle to move forwards with the language. I'm "clever" but just not pressing (?) – not sure what the answer is though!

No mention of schools we need to start young

2. Excellent infrastructure and joined up services

Full telecoms sooner!

No improved telecoms – keep the mountain free of people making phone calls or surfing the internet. Better telecoms in the surrounding towns and villages.

Agree esp. re telecoms improvement – people rely on mobiles for *everything* nowadays e.g. may help re up to date weather.

[agree with key point on] telecommunications – better mobile reception.

[agree with key point on] better weather forecasting – Snowdon is a law unto itself!

More accessible/up-to-date weather info

Need more information at the bottom of the Llanberis path, and also all the walking groups that come need the instructor telling them about the countryside code before they start walking.
Angen mwy o wybodaeth yn waelod Llwybr Llanberis, ac hefyd yr oll grwpiau cerdded sydd yn dod angen i'r instructor ddweud wrthynt y rheolau cefn gwlad cyn iddynt cychwyn cerdded.

More information on the points of interest – do people on Snowdon know the history of mining?
Why lakes have no fish? etc

[agree with key point on] facilities (toilets etc). Current ones not up to expected level.

3. A healthy and thriving local economy that serves both local people, communities and tourists

4. A healthy and thriving environment

Dark skies is underplayed – visitors to any house(?) always marvel at the sky at night

Mentions conservation management of protected sites what about conservation management of rest

Maybe a little more focus on wildlife – Snowdonia has some wonderful and rare birds & fish. All this is a huge market.

Litter is super super problematic – as a regular visitor, we have ourselves cleared full rubbish bags out of the pass ☹

Solve the litter problem

5. A world class visitor experience

May be worth looking at the DOC model in New Zealand – the way they welcome and *inform* visitors is *exceptional*

The Action Plan

Are you happy with the main priorities?

Unhappy

Moderately happy

Very happy

General

[Action plan] looks good – fingers crossed it is delivered successfully.

Great plan!!

Most things on the plan are great! I've put lots of suggestions, that doesn't mean I disagree.

What you plan to do/achieve could be more specific. How will you measure it?

The rural economy and local communities

Snowdon branding is very important – people/visitors love “local stuff” – meat/honey/beer/cider
“Communication” with people in the area but only proposal is with businesses and land owner/managers. What about the rest?

Visitor information and services

Great [action plan]. Currently limited resources at Pen y Pass but there is nothing around bottom of Llanberis Path (if there is I've missed it!) Weather forecast etc. Accessible is a start – cloud cover/rain etc. This could be limited to more general information around equipping oneself for the mountain.

Promoting year round tourism is GREAT. But – you will need to advertise and utilize more than Snowdon – it's weather dependent. The slate quarries are a great rainy day activity – could this be promoted more???

Winter and Christmas fayres would be a huge draw.

Winter events may help even out visitors and generate income and jobs.

“Extended visitor season” – involving schools outside area could help this.

Have a warden at main point of access to the mountain advising on weather, responsibilities, littering, dogs, attire, maps etc. A welcome to the hill.

Suggestion: (used in Italy). Signs at bottom of each summit track giving average times to summit for 1. Athletes 2. 'Average' walker 3. Families, & average calories burned. This should stop people setting off too late and [...] energy required.

Need resources which are easy to find for visitors to be prepared.

Visitor infrastructure and services

Toilet facilities need an urgent upgrade (hot water/hand dryers/soap) e.g. Nant Peris. Better facilities for campervans (parking/waste disposal etc.)
Love the plan to increase access for people with disabilities.
Parking is a huge issue – needs a faster solution?
Take control of Pen y Gwryd and make it a mecca for walkers at the end of the day.
Transport – it is essential the Sherpa connects with incoming buses and trains. Walkers often want an early start.
Outdoor activities, adventure and access
Snowdon circular sounds FABULOUS!!! 😊
Need to reduce the impact of group use (3 Peaks etc)
[easy to find] event management guidance – who to contact – things to consider - How to plan (Happy to help!) [Tracey Breeze]
As event organisers its great to see recognition of contribution events bring to economy. We are aware of our environmental responsibilities. Would be good to have a ‘seal of approval’ or ‘code of conduct’ for event providers.
If you want young people to be involved in tourism and to value the mountain you need to involve local schools – young rangers is great but younger.
Caring for the mountain
Plan for litter reduction? This is a huge issue and massively detracts from the area.
Educating visitors and local community is KEY.
Focus on what is unique to Snowdon but also make sure visitors respect and value the experience they have.
Need to teach visitors re litter, dog mess, and for them not to throw it on the mountain. If there was a dog poo bin by Bont Hanner Ffordd, and Bont Clogwyn, and put a volunteer there to guard it, maybe only on weekends and school holidays. Angen dysgu ymwelwyr gyda’i sbwriel, baw cwn, ac iddynt peidio ai lichio ar y mynydd. Pe fysa bin baw ci wrth Bont Hanner Ffordd, a Bont Clogwyn, ac rhoi volunteer yno i’w warchod, efallai dim ond ar weekends a gwylia ysgol.

General Comments & Feedback
Great piece of work – keep advertising it!!!
Excellent. Very good easy to read document.
We left our e-mails – please keep people informed with regular updates. Keep up the good work!
Would be good to take it to local communities.
EXCELLENT. Good to know so many people care so much. Things need to change.
Snowdon is a fantastic place and resource. It is great different organisations are coming together to plan a successful future for it and local people
Wonderful positive feeling after visiting the evening. Great work! Great plan! Exciting times ahead. Great diversity of the plan.

Appendix 4: Facilitator notes – Snowdon Event

KEY SUGGESTIONS (Mark Richardson)

These stood out as the key ideas:

Things missing:

- The importance of Snowdon and its impact on the wider area
- More emphasis on encouraging people away from Snowdon to other mountains and potential tourist spots in Snowdonia
- Sources of investment and income generation

Opportunities

- Develop a strong link to the North Wales Economic Ambition Board and wider stakeholder engagement beyond Snowdonia itself.
- Develop and promote throughout SNP a Snowdon App to:
 - Provide up-to-date, downloadable information on:
 - Walking routes
 - Countryside code
 - Mountain safety
 - Public transport
 - Parking
 - Accommodation and local businesses
 - Mountains and tourist attractions other than Snowdon
 - Local history, wildlife, other points of interest
 - Welsh language
 - Snowdon events (e.g. marathon, 3 peaks race, etc.)
 - Guidance for group leaders
 - Gather information on:
 - Planned group visits
 - Visitor experience
 - Visitor activity
 - Reported problems
 - Environmental surveys
 - Walkers location and expected return time– in case of emergency

- Improve connectivity by using [FEMTOCells](#) in key hotspots like car parks and the start of paths to ensure access to 3G signals at key points without spoiling the landscape with masts.
- Make Snowdon a 'Zero Waste Mountain' – introduce recycling points at all car parks, other key access points for the mountain and the summit.
- Develop the infrastructure and marketing to link Snowdon more effectively with other tourism destinations in North Wales, using the pull of Snowdon to drive tourism more widely in North Wales and reducing the burden on Snowdon itself.
- Better waymarked routes (French style?)
- Staffed information points at the start of the busiest paths during peak season to provide information and guidance, particularly for inexperienced walkers
- Investment / income opportunities:
 - Tourist tax in return for free access to public transport (Swiss model)
 - Enhanced population settlement (from UK government)
 - Congestion charge (with residents exemption)

1. Parch/Respect

Oes 'na 'rywbeth ar goll o'r cynllun? / Is there anything missing from the plan?

Tydio ddim rili yn deud sut da ni yn delio efo gormod o bobl a phwysau yn yr ardaloedd poblogaidd – sut mae hyn effeithio ar profiadau trigolion ac ymwelwyr...effaith ar y tirlun a natur

System goleuadau traffig perygl i llwybrau cyhoeddus

Cydweithio efo parneriaid eraill ddim jest y bobl sydd yn rhan o broses partneriaeth wyddfa

Dylai trefnwyr gyrru gwybodaeth i rhyw fath o hwb ac SNPA a nhw yn gadael i bawb wybod beth sydd yn mynd ymlaen

Be di'r perthynas efo pobl efo anabledau

Dim byd am marchogaeth?

Cadwraeth bywyd gwylt – ddim digon o bwyslais trwy'r cynllun – intrinsic value of the mountain and the components – ardaloedd arbennig

Designated areas

Mae'r angen i fod yn clir am y cynulleidfa – pawb.
Mae'r parch at dwristiaid wedi bodoli ers canrifoedd
yn yr Eryri/Yr Wyddfa

Parch at ymwelwyr – diogelwch twristiaid – info on
Visit Wales – info before they arrive – make your
good day better – prepare! After reaching Pen y
Pass it's too late.

Good 4G Network – investment in safety of visitors
– visitor experience when they arrive. Establish
etiquette. Info so they can sort their own problems.

'Transient' visitors –one day/organised event – treat
it differently – need to get to them

Hysbysebu / llywodraeth / Visit Wales - dylai 'parch'
fod yn rhan o'r hysbysebion

Dylai ddod yn naturiol - problem sbwriel / gadael
tentiau

Rhoi yn y curriculum (Prydeinig)

Hybu 'behavioural change'

Symleiddio negeseuon - themâu tymhorol - calendr
o negeseuon - syml / visual

Cydwieithio â'r adran seicoleg Prifysgol Bangor –
'behavioural change'

Visual / easy read / consistency

Dod gan y llywodraeth

Enghraifft - cwmni trê yn yr Wyddfa (ddim yn lleol) -
cael nhw i gydweithio a chyfrannu'n ariannol -
'Rhodd Eryri'

Ymwelwyr yn barod i roi

Cynnyrch sy'n cael ei werthu ddim yn medru ei ail
gylchu ee cwpanau - defnyddio rhai iawn / codi ffi
am eu dychwelyd?

The potential problem of cyclists being allowed onto footpaths as a result of Green Paper 2(?) (Max Grant – Ramblers)

Better links with schools to promote the Countryside Code

Making it easier to recycle on Snowdon and in the surrounding area

Helping local communities understand the benefits of tourism

Welsh Language should be first language written and spoken

Should companies be paying for access?

More prominence should be given to the fact that the land is a shop floor for the farmer

The need to educate / raise awareness of the Country Code / Mountain Safety / the Welsh Language and Culture via social media and more traditional means such as Tourist Information Centres and notice boards

Tourists of different cultures and traditions : how to communicate without offending

An imbalance regarding the appreciation of the benefits of tourism amongst locals

Sut allwch chi neu'ch mudiad gefnogi'r cynllun? / How can you or your organisation support the plan?

Cynyddu warden gwirfoddol

Tim llwybrau ar y mynyddoedd- YG

Pres gan Cyfoeth naturiol am llwybrau

Os y Wyddfa ydi'r 3ydd atyniad mwyaf poblogaidd oes digon o gydnabyddiaeth o hyn gan sefydliadau cyhoeddus?

Amenity investment fund ond am ba hyd?

No comments from Bens table

Gwneud hi'n haws i bobl fod yn 'barchus' - clirio bagiau cerrig / cement a phethau

Rhoi neges am 'parch' allan

Rhannu neges parch Gymru drwy'r BMC, Outdoor Education Centres

Mynd i'r ysgolion

Addysgu adra

'Train the trainer' - Cadw Cymru'n Daclus

Ymuno

SNP – Put and manage recycling points in key access points

SMR – Host and manage recycling point on summit

Ramblers – educating members and beyond about the Countryside Code

Hwb Eryri: equality & attitude

Ym. Gen.: educating & engagement

BH Estate: ref. to Page 53: a need for a planning system that embraces innovation: *the indicators don't match the vision = more projects

PyB: hold an annual environmental conference which target agencies who come in to do big events

** The Partnership needs to build respect for each other **

2. Seilwaith a Gwasanaethau / Infrastructure and Services

Oes 'na 'rywbeth ar goll o'r cynllun? / Is there anything missing from the plan?

Prif bwyntiau i'w weld yn y ddogfen

- pwysig bod gwasanaeth sbwriel yn gwagu biniau a glanhau toiledau yn fwy aml yn ystod cyfnod prysuraf y gwyliau- defnyddio technoleg newydd e.e compacting smart bins – angen arloesedd a rhannu arbenigaeth
- pwysigrwydd 4g i'r gwasanaethau fel hyn

Datblygu cynllun gwirfoddolwry i gefnogi efo'r problemau sydd wedi'i adnabod

Beth am y cyfleoedd i fentrau cymdeithasol rhedeg rhai o'r gwasanaethau yma?

Balans rhwng bysus a tacsis

Economic strategy – emphasis on agriculture and tourism – not rest of private sector e.g. Seimens. Doesn't address issues in Future Landscapes Review – sustainable use of natural resources. Where does higher value jobs come from?

Cefnogaeth i ddatblygu perchnogaeth busnesau, nid jyst gweithwyr – yn arbennig i bobl ifanc. Something as simple as timetable availability – information before visiting

Need message – 'way to get to Yr Wyddfa' is by bus'. Conflict between parking on outskirts 'full already' vs the centre – Pen y Pass – park and rides? Use local schools in holiday time – revenue for schools. Eedrych ar dacsis eto.

Sherpa – smaller vehicles more often – don't start early enough and leave late enough.

Lle mae arian newydd?

Hyrwyddo mwy

No joined up thinking with 'Visit Wales'

Angen infrastructure i gefnogi cynnyrch

Harness private sector

New sources of income

Dim byd yn y cynllun am sut i ariannu

Sut mae llefydd tebyg yn cael ei hariannu?

Bus service Sherpa yn y llefydd iawn / angen revenue i wasanaethu

Much better use could be made of technology (e.g. a Snowdon App)

Sherpa Bus:

- should be much more comprehensive,
- service should be more frequent
- should run more consistently throughout the year
- should be electric
- information should be much more readily available on the ground

Infrastructure should link more effectively with other tourism destinations in N Wales – taking people out from Snowdon as well as bringing them in

Better signage to tell people they're not allowed to park before they get fined

Public transport should be properly integrated between SNP, Gwynedd and Conwy – revive the Green Key Partnership?

White Space TV in addition to Access to the Internet / wi-fi

A physical / iconic hub : modern information Centre

Lack of comparison with other mountainous areas in the world that are tourist attractions as a good practice exercise

Sherpa bus timetable needs to be more accommodating

Pen y Pass needs either a completely new building or to be closed

The opportunity for social enterprises @ path beginnings / ends

Sut allwch chi neu'ch mudiad gefnogi'r cynllun? / How can you or your organisation support the plan?

Sherpa- gwella gwasanaeth- yn ystod dyddiau yr wythnos a yn y tymor

Addasu bysus a tacsis i weithio yn well efo'i gilydd

Parcio cyfreithlon- signage, marcio meysydd a llfeydd parcio, codi ymwybyddiaeth a adnabod tiroedd gwahanol

Cyngor Gwynedd a'r Parc yn gweithio yn gwell

Need to make it easier to access info about support, and making it easier to apply

Are the restrictions in grants correct? Need to be looked at. Visit Wales and Welsh Government

Limitation – yda ni eisiau mwy o bobl?

Newid agweddau pobl Corff bach – rhaid gwneud pethau *ar y cyd*

Fundraising – 'linc' efo'r ardal (foundation) – cysylltu â phobl efo prês ' national pride' – Community Foundation Wales

Gwella'r llwybrau – wedi gwneud Pen-y-pas – gwella'r product (National Park)

Cynnal surveys / perspective y defnyddwyr / pobl leol

Cynnig 'champions' / pobl enwog

Gwell gwasanaeth bws

Gwell IT / communication / Wifi

Chris Gaunt (artcitect):

- Supplying camping pods to enable farmers to gain greater benefit from tourism
- Integrating technology and ensuring visitors have access to information about Snowdon in their accommodation

Iolo Roberts – Volunteer Warden (Snowdonia Society):

- Snowdonia society could work to recruit more volunteer wardens, but would SNP then need to more wardens to oversee them?

SMR:

- Local businesses need to improve their own facilities, including toilets, accommodation etc.

Kris Williams (photographer):

- Promoting lesser-known parts of Snowdonia through images

Menter Môn: Snowdonia Giving Project

Plas y Brenin: education & training, voluntary donations

Cyngor Cymunedol Llanrug a Chwm y Glo: angen cynnwys y cynghorau cymuned fwy-fwy: gallu helpu efo'r "Hwb Gwybodaeth" & dylanwadu ar y gwasanaeth bysiau lleol fel bod mwy ohonynt

Cyfoeth Naturiol Cymru: angen i uwch-swyddogion lobio am ragor o arian gan bod angen ffynhonell parhaol er mwyn cynaladwyedd. Angen codi ymwybyddiaeth o ofidion; a rhagor o wardeiniaid gwirfoddol

3. Yr Economi Lleol / Local Economy

Oes 'na 'rywbeth ar goll o'r cynllun? / Is there anything missing from the plan?

Dim byd amlwg

Angen amserlen a milestones mwy clir- a sut mae tracio nhw- yn enwedig cynnydd tymor byr

Angne son am tyfu sector yr awyr agored a sut mae o'n tyfu yr economi- datblygu y linc efo pobl lleol a chynnig hyfforddiant

Dyle consents planning cael ei rhannu efo partneriaid lleol am sylwadau

Pryderon am Brexit – dim wedi cael digon o sylw

Sut i fesur gwellhad yn yr economi e.e. amaeth.

Angen canmol y dogfen – pobl wedi cael cyfle.

Mae'n cyfeirio at farchnata – dylai gwerthiant oen yn cynyddu.

Targedau gwahanol – econ system services

Hoffi targed waliau – mesur y cynefinoedd yn cael eu creu

Cynllun iawn, yn y lle iawn, gyda'r maint iawn, yng nghyd-destun y tirwedd cyfan

Angen i ychwanegu coedwigoedd

Dan ni'n edrych ar greu incwm, ond beth am leihau costau – efficiency e.e. bedding – nid 'corner cutting' – bod yn arloesol – trwy'r cynllun i gyd.

Sut i ariannu / cael gafael ar yr adnoddau

'Signpostio' o ble mae'r adnoddau ee dod o Ewrop?

Beth fydd effaith Brexit?

Capacity level – yda ni wedi ei chyrraedd? hy: yda ni'n gallu ymdopi efo mwy o ymwelwyr ar y mynydd? Oes angen cau rhai llefydd? Ardal ddim yn elwa – mae eisiau 'rest' neu mae rhywbeth mawr am ddigwydd – foot and mouth yn 'blessing' – 'advertisement campaign' – mwy a mwy – rhu accessible – dim adnoddau i'w gefnogi.

Cydweithio fwy

Codi ffi / donation / Visitor giving

Rheoli digwyddiadau – charity – cael cyfraniad ganddyn nhw

Lincio pethau eraill - nid jest yr wyddfa - twin towns ac ati

Digwyddiadau - angen ffordd o wybod be a phryd - drwy unigolyn - efallai creu 'permit'

Her – codi arian

Annog busnesa lleol

Neud o - dim siop siarad – gweithredu!

The importance of Snowdon and its impact on the wider area

A strong link to the North Wales Economic Ambition Board and wider stakeholder engagement beyond Snowdonia itself.

More emphasis on encouraging people away from Snowdon to other mountains and potential tourist spots in Snowdonia

Uncertainty, particularly for farmers, in the wake of Brexit

The tensions between local people who directly benefit from tourism (business owners and their employees) and those who don't.

Equality impact on jobs: farming and tourism related

Commercial activities posing as charitable events or otherwise: no mention of controlling or licensing this – they don't give back to the local community and don't cover the costs of degradation to footpaths / livestock/Mountain Rescue

N.B. THE NATIONAL PARK IS FOR RECREATION NOT COMMERCIAL EXPLOITS

Sut allwch chi neu'ch mudiad gefnogi'r cynllun? / How can you or your organisation support the plan?

Grantiau visitor amenity scheme a marchnata

Economi wledig- cyngor ac eraill parhau i lobio pwysicrwydd ardaloedd gwledig- agenda tlodi – cyflogau isel tymhorol ayb

Pwysicrwydd gweithio mewn partneriaeth- angen tunnu rhain at i gilydd pobl adnoddau a arbenigaeth

CNC – croesawu'r cynllun, dysgu o'r dull i greu fo. Dan ni'n gallu cynnig gwybodaeth, a bod yn 'regulatory partner' – trafod y cynllun yn cyd-destun y 'area statement'

Y Parc – cyflawni prosiectau, sgiliau a gweithio gyda'r cymuned – clust ar y ddaear

Safle ECN – gwybodaeth manwl am y newidiadau – llawer o designations

Ym. Gen. – Eiddo pwysig yn yr aral – Nant Gwynant – tenantiaid yna, bythynod gwyliau a chyfleoedd i bobl ifanc – awyr agored.

Cyhoeddusrwydd - cynnal mynydda

Addysgu, hybu ymarfer da

Gwynedd Wledig - y swyddog newydd - i gael y neges allan ynglŷn ag amodau hy: rheoli a chydlynu

Gweithio ar 'events' efo cwmnïau a mudiadau ar draws Prydain

Helpu hybu'r Gymraeg

Vince Hughes (Snowdon Mountain Railway): Buy more from local suppliers – help local suppliers to scale so they are capable of meeting SMR demands

Andy Harbach (Ogwen Mountain Rescue Team): Get more mountain safety information into local businesses, particularly accommodation providers

Carwyn ap Myrddin (SNPA): Get more infrastructure information – walking routes, parking information, public transport etc. into local accommodation providers

Hwb Eryri: ceisio amseru pethau'n well rhwng y rاسus ac ati (teithiau cerdded elusennol, er enghraifft)

Ymddiriedolaeth Genedlaethol: opportunities to engage in Hafod y Llan (5 million members goal)

CLA: engaging with Partnership & representing members

Baron Hill Estate: as above & representing tenants

Plas y Brenin: educating people

4. Amgylchedd/Environment

Oes 'na 'rywbeth ar goll o'r cynllun? / Is there anything missing from the plan?

Defnyddio arweinwyr ar y mynydd - diffyg defnydd angen codi ymwybyddiaeth- rhaglenni addysg yn yr ysgolion – bod nhw'n egluro y tiriogaeth, bywyd gwyllt diwylliant ayb..ddim jest deud sut i fynd o A i B

Rol gwirfoddolwyr- hel gwybodaeth a adrodd sut mae pethau + arolygu cyflwr y mynydd ..ffurfioli a neud stwff mwy strategol

Rhodd Eryri – neud o yn hanfodol- beth ydi'r dyfodol i hw- strategaeth ddim yn glir- oes angen deddfu? - hefyd sut dyle fo weithio i ymwelwyr dydd

Is the amount of livestock on the land the right amount – grazing

Use instructors to talk about the environment and biodiversity – establish a scheme where they can volunteer?

Are there any no go areas because of biodiversity?
Is closing paths a consideration, and only use a designated path

Is one way of conserving biodiversity is to market other areas?

'Voluntourism' should be enhanced – ecotourism.

Regional Policy / devolved / rhwng ffermwyr/
cynulliad / treth dalwyr ee cynllun amaethyddol dim
ond i'r Wyddfa (lleol) - sustainable development
delivered locally

Un corff i arwain – accountability

Pobl / y gymuned / ymwelwyr - ADDYSGU (ee
'Snowdonia in Bloom)

Diffyg ymroddiadau gwleidyddol

Datganoli – y gallu i wneud penderfyniadau ac
adnoddau lleol

Edrych ar wledydd eraill - be maen nhw wedi
gwneud

There needs to be a greater understanding of the balance between the opportunities of hydro schemes for the environment, and the impact on river-flow, wildlife and degradation of the countryside. Proper planning and proper policing of their construction and implementation.

The balance between natural ecosystems and farming

Better education of locals and visitors about biodiversity on Snowdon and the importance of sticking to footpaths and not picking flowers (for example)

Environmental education built in to other visitor experiences

Toilet waste: increased provision somehow: need to review the situation as 1 whole

Train the Trainer sessions for voluntary wardens by various experts

The need to develop a sense of pride

Continuation of information sharing via various bodies / groups

Yr Wyddfa paper published biannually by the Partnership : S/S and A/W

Sut allwch chi neu'ch mudiad gefnogi'r cynllun? / How can you or your organisation support the plan?

Cydlynu a rhedeg rhodd Eryri - PCE

Trydydd sector i fod yn "critical friend" - lincs efo trigolon a gwirfododlwry

Gwario pres rhodd Eryri!

Lincs efo ysgolion- wardeiniad a swyddogion y parc addysgu pobl – plant a teuluoedd

Communication strategy for Yr Wyddfa	
Someone needs to incentivise the removal of litter	
Produce standard statements to include on all events/attractions/orgs – consistent messages	
High profile campaigns to collect litter – superheroes	
Need to reach people who are not accompanied or on organised visits	
<i>Rhannu gweledigaeth ac uchelgais i'r ardal</i>	
More consistent set of messages – <i>joint</i>	
Cuts – can't all keep going individually - <i>share</i> expertise	
Work as a <i>whole</i> - <i>Joined up</i> thinking / cross over boundaries and organisations	
Beth am newid ar ôl Brexit ?	

As organisations – all sign up to share conservation message about the area	
SNP – Put and manage recycling points in key access points	
SMR – Host and manage recycling point on summit	
Cyfoeth Naturiol Cymru: arfogi wardeiniaid gwirfoddol efo mwy o wybodaeth	
*pwysig cydweithio gyda phobl sydd ag anifeiliaid	
**sichrau bod negeseuon ymysg aelodau’r Bartneriaeth yn gyson a’u bod yn bositif!!	

5. Profiad ymwelwyr

Oes ‘na ‘rywbeth ar goll o’r cynllun? / Is there anything missing from the plan?

Pam mae Destination Management Conwy yn cael son ond ddim son am yr un corff yng Ngwynedd?

Ydi'r ochr diwylliant/iaith yn ddigon cry' yn y cyrsiau "mountain leaaders" - angen i sawl bartner sichrau bod hyn yn digwydd..a bod adnoddau fely mountain active trip cards yn cynnwys pethau fel hyn hefyd

Codi ymwybyddiaeth trigolion lleol o fuddion twristiaeth a'r cyfleon sydd yna, magu sgiliau mentergarwch yn y maes

Ddim jest gweithio efo digwyddiadau- mae angen gweithio efo "attractions" hefyd

Resources available to ensure tourists get good experience – strategically ring fence money. information available does not help visitors make decisions about choices

More emphasis on Welsh place names

Visitors need to know their experience just doesn't happen by magic – long term.

Section is good – need to know how to implement.

Joined up management – political aspect.

Good info will build understanding and respect

** Nedd presence of local politicians – cllrs, AMs.

Cynllun yn cael ei ddefnyddio gyda chyrrff
'llywodraethu' – pob lefel o lywodraeth a
chynllunio.

** Angen hyrwyddo'r proses fel 'exemplar'.

Cydweithio efo'r busnesau lleol ee zip world - rhoi
gwybodaeth gyffredinol / cyson am y tywydd,
diogelwch ayyb

Hybu'r ardal - nid jest yr Wyddfa

Tourist Tax (y cwmnïau)

Rheoli cwmnïau ee: teithiau cerdded / mountain
guides / Rhôdd Eryri / tyfu ar 'voluntary scheme'

Tyfu sgiliau - pobl leol / datblygu cyrsiau addas

Pobl leol - gweithydd yn y maes / siaradwyr
Cymraeg

How to manage excessive demand – for the
mountain, buildings, facilities etc.

More low-level family routes (easier circular routes
coming off the Snowdon Circular)

Toilets: opportunity for social enterprise : Brecon as
an example : Local Council involvement

Standards not meeting expectations

Lack of decent accommodation / campsites:
glamping

Entrance via information centre: such as in Giant's Causeway

Transport and car-parking: impact on locals and visitors: potential earner for landowners: needs to be strategic with infrastructure

Traffic management plan with the Partnership operating as an official body

Sut allwch chi neu'ch mudiad gefnogi'r cynllun? / How can you or your organisation support the plan?

Ymddiriedolaeth Genedlaethol- yn cefnogol o marchnata stwff Dolig, gwyliau ayb

Pobl yn teimlo bod angen cysylltu efo hwb canolig am wybodaeth cyson a chywir....rol i swyddog partneriaeth?

Need not to be afraid of challenging people to maintain higher standards

Link in with the university – return as visitors of the future

Need more joined up working

Promote natural history better

University be a partner in mountain management rather than consumer

Politicians need to engage and ensure resources

Creu cyfleoedd i wneud gweithgareddau / hysbysebu gwybodaeth ee Partneriaeth Cwm Idwal (NRW)

Ar y cyd:

- Defnyddio 'pot' rhoddion i gyflogi wardeiniaid
- Mynd a'r neges i Gaerdydd
- Codi £1 ar bawb !?! / neu 'rhoddion'
- Hybu'r 'donate button' ee rasys yn rhoi 2% i'r 'Rhodd'
- Rhannu sgiliau
- Prynu cae – codi ar barcio

SEE INFRASTRUCTURE

Hwb Eryri: doing it!

CLA: doing it re. members on the ground. Regarding the bigger picture : there's a need to lobby in Cardiff

NFU: opportunities for members of The Partnership

Ym. Gen.: Nant Gwynant toilet –twinning with Africa, & supporting local providers such as Beics Gelert

BH Estate: discuss possibilities for Pen y Pass

PyB: individuals come to train (& have a positive experience, then they come back to the area with their families
